# IMPORTANT NOTICES

**This is an important document which should be read in its entirety before making any investment decision. You should obtain independent advice if you have any questions about any of the matters contained in this Prospectus.**

**Contango Income Generator Limited ACN 160 959 991 ('Company') is a public company incorporated in Australia.**

## LODGEMENT AND LISTING

The Prospectus is dated 3 July 2015 and has been lodged with the Australian Securities and Investments Commission (ASIC). This is a replacement prospectus which replaced the prospectus dated 29 June 2015 and lodged with ASIC on that date (**Original Prospectus**). This Prospectus expires on 28 July 2016 (**Prospectus Expiry Date**). No Offer Securities will be allotted, issued, transferred or sold on the basis of this Prospectus after the Prospectus Expiry Date.

A summary of the material differences between the Original Prospectus and this Replacement Prospectus is as follows:

- additional disclosure in Section 1.1, Section 1.2, Section 2.2 and Section 10.5 regarding:
  - the Company's intention to close the Offer, issue and allot Offer Securities and seek to have the Company admitted to the Official List even if the only Applications other than from CTN are the minimum required to satisfy ASX's 'shareholder spread' requirements (that is, 400 Shareholders each holding 2,000 Shares, pursuant to Condition 7 of ASX Listing Rule 1.1); and
  - the possibility of CTN holding a substantial majority of Shares (possibly as high as 97.4%) on the Company's admission to the Official List;
- additional disclosure in Section 1.1 and Section 6 regarding pro forma financial information to reflect gross Offer proceeds of \$30,800,000 – comprising CTN's commitment to make an Application for \$30 million and the minimum amount required to satisfy ASX's 'shareholder spread' requirements (that is, 400 Shareholders each holding 2,000 Shares, pursuant to Condition 7 of ASX Listing Rule 1.1);
- additional disclosure in Section 1.3 and Section 5.2 regarding the added liquidity risk that may arise from CTN holding a substantial majority (possibly as high as 97.4%) of the total number of Shares on the Company's admission to the Official List;
- additional disclosure in Section 1.1, Section 1.2,

Section 2.5, Section 6.2 and Section 10.5 regarding the costs incurred by the Company in respect of its proposed public offer of Shares and Options in November / December 2014 (pursuant to the prospectus lodged by the Company on 28 November 2014 that was subsequently withdrawn) having been borne by the Company's sole Shareholder, CTN;

- additional disclosure in Section 1.1, Section 2.6, Section 9.4 and Section 10.5 regarding the Company's agreement to accept CTN's Application for 30 million Shares in full, meaning that if total Applications are greater than the Maximum Subscription and full Oversubscriptions, CTN's Application for 30 million Shares will not be scaled back; and
- additional disclosure in Section 1.2 and Section 2.2 regarding the Company's intentions if, upon the Company's admission to the Official List, there is a 'free float' of less than 10% of the Shares.

The Company has applied to ASX Limited (**ASX**) for admission to the Official List and for Official Quotation of the Shares on issue as at the date of this Prospectus and the Shares issued under the Offer. Vested Loyalty Options are expected to be quoted on ASX within one month after the Vesting Date.

Neither ASIC nor ASX takes any responsibility for the content of this Prospectus. Admission to the Official List is in no way an indication of the merits of the Offer or the Company.

## OFFER

This Prospectus contains an invitation to apply for Shares together with one Loyalty Option for every two Shares issued to each Applicant under the Offer.

Based on a Closing Date of the Offer of 31 July 2015, Loyalty Options issued to an Applicant will either Vest or lapse on 29 January 2016. The number of Loyalty Options held by an Applicant that Vest at the Vesting Date will depend on the number of Shares held by the Applicant at the Vesting Date.

If, at the Vesting Date, the Applicant holds the same or a greater number of Shares as the number of Shares issued to the Applicant under this Prospectus, all of the Loyalty Options held by the Applicant will Vest on the Vesting Date.

If, on the Vesting Date, the Applicant holds a lesser number of Shares than the number of Shares issued to the Applicant under this Prospectus, then the number of Loyalty Options held by the Applicant that Vest will be equal to half of the number of Shares held by the Applicant on the Vesting Date (rounded down to the

nearest whole number). For example, if an Applicant is issued 10,000 Shares under this Prospectus, that Applicant will also be issued 5,000 Loyalty Options under this Prospectus. If the Applicant holds 7,000 Shares on the Vesting Date then 3,500 Loyalty Options held by that Applicant will Vest on the Vesting Date (being half the number of Shares held by the Applicant on the Vesting Date). The Applicant's remaining 1,500 Loyalty Options will not Vest on the Vesting Date.

If the Applicant holds no Shares on the Vesting Date then none of the Loyalty Options held by the Applicant will Vest on the Vesting Date.

Loyalty Options that do not Vest on the Vesting Date lapse with immediate effect on the Vesting Date and are of no further force or effect. Each Vested Loyalty Option is exercisable at \$1.00 until 5.00pm (Melbourne time) on Friday, 30 March 2018.

The Minimum Subscription is \$30 million and the Maximum Subscription is \$100 million. However, the Company reserves the right to accept Oversubscriptions under the Offer to raise up to an additional \$20 million (before the exercise of any Vested Loyalty Options). No Offer Securities will be issued until the Minimum Subscription has been received. The Offer is not underwritten.

No person is authorised to provide any information, or to make any representation, about the Company or the Offer that is not contained in this Prospectus. Potential investors should only rely on the information contained in this Prospectus. Any information or representation not contained in the Prospectus may not be relied on as having been authorised by the Company in connection with the Offer. Except as required by law and only to the extent required by such law, neither the Company nor any other person associated with the Company or the Offer guarantees or warrants the future performance of the Company, the return on an investment made under the Prospectus, the repayment of capital or the payment of dividends on the Shares.

Before deciding to invest in the Company, investors should read the entire Prospectus. The information contained in individual sections is not intended to and does not provide a comprehensive review of the business or the financial affairs of the Company or the Shares or Loyalty Options offered under the Prospectus. The Offer does not take into account the investment objectives, financial situation or particular needs of individual investors. An investment in the Company should be considered speculative. You should carefully consider the risks (including those set out in Section 5) that impact on the Company in the context of your personal requirements (including your financial and taxation position) and, if required, seek professional guidance from your stockbroker, solicitor, accountant or other professional adviser prior to deciding to invest in the Company. No cooling-off regime (whether provided for by law or otherwise) applies in respect of the acquisition of Offer Securities under this Prospectus.

#### IMPORTANT INFORMATION FOR NEW ZEALAND INVESTORS

This Offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and the *Corporations Regulations 2001* (Cth) (**Regulations**). In New Zealand, this is subpart 6 of Part 9 of the *Financial Markets Conduct Act 2013* and Part 9 of the *Financial Markets Conduct Regulations 2014*.

This Offer and the contents of this Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and Regulations set out how the Offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime. The rights, remedies and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this Offer. If you need to make a complaint about this Offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

---

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified taxation or financial adviser.

The Offer may involve a currency exchange risk. The currency for the Offer Securities is not New Zealand dollars. The value of the Offer Securities will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the Offer Securities to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand, in New Zealand dollars.

If the Offer Securities are able to be traded on a financial products market and you wish to trade the Offer Securities through that market, you will have to make arrangements for a participant in that market to sell the Offer Securities on your behalf. If the Offer Securities market does not operate in New Zealand, the way in which that market operates, the regulation of participants in that market, and the information available to you about the Offer Securities and trading may differ from financial products markets that operate in New Zealand.

A copy of this Prospectus and other documents relating to the Offer have been, or will be, lodged on the New Zealand Disclose Register (<http://www.business.govt.nz/disclose>) under the mutual recognition regime.

While the Offer is being extended to New Zealand investors under the mutual recognition regime, no application for listing and quotation is being made to NZX Limited.

#### EXPOSURE PERIOD

Pursuant to the Corporations Act, this Prospectus is subject to an exposure period of 7 days after the date of lodgement of the Original Prospectus with ASIC, which period may be extended by ASIC by a further period of 7 days.

The Exposure Period enables this Prospectus to be examined by market participants prior to the raising of funds. The examination may result in the identification of deficiencies in this Prospectus. If deficiencies are detected, the Company will:

- return any Application Moneys that the Company has received;
- provide each Applicant with a supplementary or replacement Prospectus that corrects the deficiency, and give each Applicant the option to withdraw the Application within 1 month and be repaid the Subscription Amount; or
- issue to each Applicant the Shares and Loyalty Options applied for in the Application, provide each Applicant with a supplementary or replacement prospectus that corrects the deficiency and give each Applicant the option to withdraw the Application within 1 month and be repaid the Application Moneys.

Application Forms received prior to the expiration of the Exposure Period will not be processed until after the

Exposure Period. No preference will be conferred on Application Forms received during the Exposure Period and all Application Forms received during the Exposure Period will be treated as if they were simultaneously received on the Opening Date.

# CHAIRMAN'S LETTER

3 July 2015

Dear Investor

## **Contango Income Generator Limited**

On behalf of the Board of Directors, it is my pleasure to present this Prospectus and to offer you the opportunity to become a Shareholder and Loyalty Option holder in the Contango Income Generator Limited Listed Investment Company.

The Company's objective is to provide Shareholders with a sustainable income stream of dividends with some capital growth over time. In addition, the Company seeks to provide investors with diversification from the top 30 securities of the S&P/ASX 300 Index by market capitalisation (**ASX Top 30**).

In this regard, to deliver on its objective, the Company will seek to invest in high quality stocks that sit outside of the ASX Top 30 that have low volatility compared to market averages, sound balance sheets, consistent and franked dividends, and sustainable earnings growth.

The Company is seeking to raise a minimum of \$30 million and a maximum of \$100 million through the Offer and to obtain a listing on the Australian Securities Exchange (**ASX**). The Company also reserves the right to accept Oversubscriptions under the Offer to raise up to an additional \$20 million.

The Company's sole shareholder at the date of this Prospectus, Contango MicroCap Limited (**CTN**), has agreed to subscribe for 30 million Shares (and 15 million Loyalty Options) under this Prospectus for a total Subscription Amount of \$30 million.

CTN has no present intention to sell these Shares in the medium term. Similarly, CTN has no present intention to sell a material proportion of the Loyalty Options once they Vest.

In addition, the Directors will give priority to an Application received from a CTN shareholder who is a resident of Australia or New Zealand and registered in CTN's register of members as at 7.00pm (Melbourne time) on Wednesday, 1 July 2015 (**CTN Shareholder**).

The Company's Investment Portfolio will be managed by Contango Asset Management Limited (**Investment Manager**) under the terms of the Investment Management Agreement. The Investment Manager is a specialist funds manager, founded in 1998, and is also a wholly-owned subsidiary of CTN. The Investment Manager and CTN have approximately \$833 million in funds under management (as at 31 May 2015).

The Investment Manager is a 'top down business cycle' manager. It aims to buy and hold individual stocks for the longer term. Further, it intends to manage the Investment Portfolio with sensitivity to economic and market factors as well as stock specific considerations.

The Investment Manager will also provide the necessary administrative and accounting services as required by the Company under the Investment Management Agreement. Consequently, the Company will have no employees on completion of the Offer.

The Company's dividend policy (which is explained further in Section 3.10) is to pay annual dividends of not less than 6.5% of the Company's net tangible asset (**NTA**) value per Share. For the purposes of applying the Company's dividend policy:

- for the financial year commencing 1 July 2015, the Company's NTA value per Share will be based on the Company's NTA value per Share as at the date of the issue of the Offer Securities pursuant to this Prospectus (**Issue Date**); and
- for each subsequent financial year, the Company's NTA value per Share will be based on the Company's NTA value per Share as at 1 July of each financial year.

---

The Directors believe this dividend policy is achievable, based on:

- the medium-term sector returns in relation to the midcap sector of the market – the return over the last 5 years for the S&P/ASX Mid-Cap 50 Index has been 10.0% per annum (and has been over 7.2% per annum over the last 10 years);
- the prospect of the Company achieving capital growth on its investment portfolio, which the Company may utilise to pay dividends; and
- a substantial proportion of the Company's investments being cash or in liquid stocks, which will assist the Company in having the required liquidity to achieve its dividend policy, assuming sufficient portfolio yield and capital growth.

Further, since its inception in December 2012, the average actual portfolio yield of the identical strategy adopted in respect of the Income Generator (Ex-30) Strategy Fund has been 6.0% per annum. Whilst this yield is less than the amount of dividends proposed to be paid by the Company under its dividend policy, the Directors believe an annual dividend of 6.5% is achievable, based on the above. By way of comparison, CTN's average actual portfolio yield in the last 5 years has been approximately 3.4% per annum and it has paid an annual dividend to its shareholders of over 7% in each of those years.

It is the current intention of the Company to pay dividends to Shareholders on a semi-annual basis (that is, following the end of the first half of the relevant financial year and also after the end of that financial year).

Despite the Company's dividend policy, no assurances can be given by any person, including the Directors, about the payment of any dividend or the level of franking on any such dividend. Therefore, there can be no guarantee that the Company will achieve its stated dividend objective. Actual dividends may be lower than expected, and there may be periods in respect of which dividends are not paid at all.

We believe the Company will be attractive to any investor seeking a consistent flow of dividends, with some capital appreciation over the medium term and diversification through exposure to a portfolio of companies outside of the ASX Top 30. The Directors believe this should also be an attractive investment for self managed superannuation funds.

This Prospectus contains further details of the Offer including information about the Company, its investment strategy and details of key risks of investing in the Company (see Section 5). I encourage you to read this Prospectus in full and carefully consider it before making your investment decision.

On behalf of the Board of Directors, I invite you to consider participating in this investment opportunity, and look forward to welcoming you as a Shareholder.

Yours faithfully

**Ian Ferres AM, FIAA, FAICD**  
**Chairman**  
**Contango Income Generator Limited**

WHAT IS THE BUSINESS OF THE COMPANY?	<p>Upon completion of the Offer and the Company's admission to the Official List, the Company will be a listed investment company (<b>LIC</b>) that will primarily invest in a diversified range of listed investments in Australia.</p> <p>The Company's objective is to provide investors with a sustainable income stream of dividends, with some capital growth over time, and a practical and transparent opportunity to benefit from appreciation in the value of an investment portfolio that comprises income orientated shares and other securities listed on ASX.</p> <p>The Company will focus on the securities of those entities within the S&amp;P/ASX 300 Index, excluding the securities of the 30 largest entities (by market capitalisation) included in the S&amp;P/ASX 300 Index – as many prospective shareholders already hold securities directly or indirectly in the 30 largest entities (by market capitalisation) listed on ASX – and, accordingly, the Company will offer Shareholders the prospect of returns and income for Shareholders from a different opportunity set.</p>	Section 3
WHAT IS THE COMPANY'S INVESTMENT STRATEGY AND MANDATE?	<p>The Company's investment strategy is to construct a diversified portfolio of listed investments in Australia, using a disciplined investment process implemented by, and using the experience of, the Investment Manager.</p> <p>In this respect, the Company, through its Investment Portfolio, will provide investors with access to the returns of a portfolio of listed entities predominately within the S&amp;P/ASX 300 Index, excluding the securities of the 30 largest entities (by market capitalisation) included in the S&amp;P/ASX 300 Index. The Investment Portfolio will have a particular focus on those entities which the Investment Manager expects will pay higher levels of dividends (and/or distribute higher levels of franking credits) over time.</p> <p>The Investment Manager is a 'top down business cycle' manager. It believes that a detailed understanding of global and domestic economic conditions and how those considerations impact on financial markets is important in determining which sectors and stocks will outperform the market.</p> <p>The top-down approach of the Investment Manager is complemented by a disciplined 'bottom up' stock selection process, which involves rigorous quantitative and qualitative fundamental analysis in respect of each of the stocks identified for potential investment. This includes detailed stock modelling, in depth company research notes and reports complimented with management meetings. When constructing a diversified portfolio, the Investment Manager also considers the portfolio's overall risk positions including stock, sector and thematic risks.</p> <p>The Investment Portfolio will typically be comprised of securities in 30-40 companies which demonstrate:</p> <ul style="list-style-type: none"><li>• higher than market yield;</li><li>• sustainable dividend growth and payout ratios;</li><li>• lower than market 'beta' / risk profile;</li><li>• low earnings volatility; and</li><li>• balance sheet strength.</li></ul>	Section 3

	<p>The key dependencies underpinning the Investment Manager’s investment strategy for the Company are the research, analysis, skill and experience of the Investment Manager as well as market conditions.</p> <p>While, at a maximum, 50% of the Investment Portfolio may be held in cash and cash-like investments, the Directors currently expect that the Company’s holdings of cash and cash-like investments will not normally reach this threshold. Rather, it is the current expectation of the Directors that the Company’s holding of cash and cash-like investments will materially exceed the ‘Target’ allocation (i.e. 5%) generally only in circumstances where the Investment Manager believes that the risks, including market or systemic risks, to the overall value of the Investment Portfolio justify an increase in the cash and cash-like investments in order to appropriately protect the Investment Portfolio.</p>

	<ul style="list-style-type: none"> <li>the prospect of the Company achieving capital growth on its investment portfolio, which the Company may utilise to pay dividends; and</li> <li>a substantial proportion of the Company's investments being cash or in liquid stocks, which will assist the Company in having the required liquidity to achieve its dividend policy, assuming sufficient portfolio yield and capital growth.</li> </ul> <p>Further, since its inception in December 2012, the average actual portfolio yield of the identical strategy adopted in respect of the Income Generator (Ex-30) Strategy Fund has been 6.0% per annum. Whilst this yield is less than the amount of dividends proposed to be paid by the Company under its dividend policy, the Directors believe an annual dividend of 6.5% is achievable, based on the above. By way of comparison, CTN's average actual portfolio yield in the last 5 years has been approximately 3.4% per annum and it has paid an annual dividend to its shareholders of over 7% in each of those years.</p> <p>Despite the Company's policy, no assurances can be given by any person, including the Directors, about the payment of any dividend or the level of franking on any such dividend. Therefore, there can be no guarantee that the Company will achieve its stated dividend objective. Actual dividends may be lower than expected, and there may be periods in respect of which dividends are not paid at all.</p> <p>It is the current Board policy that all dividends paid to Shareholders will be franked to the maximum extent legally permissible without exposing the Company to liability to pay any franking deficits or other tax or impost.</p> <p>Please note that the Company's dividend policy (and ability to pay dividends) may be impacted by various factors outside the control of the Company and are subject to the risks set out in Section 5.</p>	
WHEN WILL THE FIRST DIVIDEND BE PAID?	<p>It is the current intention of the Company to pay dividends to Shareholders on a semi-annual basis (that is, after the end of the first half of the relevant financial year and also after the end of that financial year). On this basis, it is expected that the first dividend to Shareholders will become payable in or around March 2016.</p> <p>However, despite the Company's policy and current intention, no assurances can be given by any person, including the Directors, about the payment of any dividend or the level of franking on any such dividend.</p>	Section 3.10
ADMINISTRATION OF THE COMPANY	It is not intended that the Company will have any employees and that the day to day administration of the Company, including its compliance with its financial and reporting obligations, will be undertaken by the Investment Manager or a related entity of the Investment Manager in accordance with the terms of the Investment Management Agreement.	Section 9.1
DOES THE COMPANY HAVE ANY OTHER MATERIAL CONTRACTS?	<p>In addition to the Investment Management Agreement and Subscription Agreement, the Company has entered into an Offer Management Agreement with the Joint Lead Managers with respect to the Offer.</p> <p>The Offer Management Agreement includes provisions governing Evans and Partners Pty Ltd's role as the Authorised Intermediary. Refer to Section 9.2 for further details.</p>	Section 9.2

### 1.3 INVESTMENT RISKS

TOPIC	SUMMARY	FOR MORE INFORMATION
WHAT ARE THE KEY RISKS OF INVESTING IN THE SHARES?	<p>An investment in the Company should be considered to contain an element of risk. You should give full consideration to this Section 1.3 and the detailed discussion of risks that is set out in Section 5 of the Prospectus.</p> <p>The key risks associated with an investment in the Company include:</p> <ul style="list-style-type: none"> <li>the success and profitability of the Investment Portfolio (and therefore the Company) will depend in large part on the ability of the Investment Manager to make investments – poor investment strategy and investment selection or an inability to construct a portfolio in accordance with the Company’s proposed investment objectives, strategy, guidelines and permitted investments may materially and adversely affect the value of the Investment Portfolio and the Shares;</li> <li>changing market conditions such as negative changes in market sentiment;</li> <li>loss of the Investment Manager as manager of the Investment Portfolio;</li> <li>loss of key personnel of the Investment Manager (including members of the investment team of the Investment Manager);</li> <li>market and systemic risk – investment returns are influenced by general market factors both in Australia and internationally and by factors specific to each security. In particular, the market prices of the shares of many listed entities have in recent times experienced wide fluctuations which in many cases reflect a diverse range of non-entity specific influences including: <ul style="list-style-type: none"> <li>general economic conditions, including changes in inflation rates, short-term or long-term interest rates, exchange rates and commodity prices;</li> <li>variations in the local and global markets for listed securities;</li> <li>domestic and international economic conditions;</li> <li>changes in investor confidence generally and in relation to specific sectors of the market;</li> <li>movements in the value of the Australian dollar against other major currencies;</li> <li>changes in the regulatory environment;</li> <li>natural disasters, global hostilities and acts of terrorism;</li> <li>changes to government policy, legislation or regulation including in relation to taxation and other policy changes; and</li> <li>the inclusion or removal of stocks from major market indices;</li> </ul> </li> <li>the ability of a Shareholder (and Loyalty Option holder) to sell the Offer Securities on ASX will be a function of the turnover or liquidity of the Offer Securities at the time of sale. Given the nature of the Company, it is likely that there will be a low level of liquidity in trading of the Offer Securities. As a result, Shareholders (and Loyalty Option holders) may not be able to sell their Offer Securities at the time and in the volumes or at a price they desire;</li> <li>the Investment Manager may hedge the exposure of investments of the Company against investment loss, but is not obliged to do so. There is no guarantee that any hedging will be successful. The cost of implementing hedging may be significant. See Section 5 for risks associated with hedging;</li> <li>the Offer Securities and/or the Company’s investments may decline in value. Investors in the Company are exposed to this risk through both their holding in the Offer Securities and through the Company’s investments. In addition, the Shares may trade on ASX at a discount to the net tangible asset value of the Investment Portfolio on a per Share basis and the performance of the Shares may not be correlated with the performance of the Investment Portfolio;</li> <li>the past performance of investment portfolios and funds managed by the Investment Manager, and persons associated with the Investment Manager, may not be a guide to the future performance of the Company; and</li> <li>the potential difficulty in acquiring or disposing of large volumes of additional Shares due to the possibility that CTN will hold a substantial majority (possibly as high as 97.4%) of the total number of Shares on the Company’s admission to the Official List. Therefore, there is a risk that there will be a limited ‘free float’ of the Shares and relatively low market liquidity. As noted in Section 2.2, if on the Company’s admission to the Official List there is a ‘free float’ of less than 10% of the Shares, the Company will seek to undertake further placements of Shares within 12 to 18 months after admission to the Official List, with the intention that the ‘free float’ of Shares is more than 10% by the end of this period.</li> </ul>	Section 5

TOPIC	SUMMARY	FOR MORE INFORMATION
WHAT ARE THE ADDITIONAL RISKS OF INVESTING IN THE SHARES?	<p>In addition to those key risks detailed above, there are further risks associated with the Company and an investment in the Shares, including in the following areas:</p> <ul style="list-style-type: none"> <li>• potential conflicts of interest;</li> <li>• counterparty, credit and service provider risk;</li> <li>• risks in relation to the use of Derivatives;</li> <li>• valuation risks in relation to the Company's investments;</li> <li>• interest rate risk;</li> <li>• no guarantee of dividends or return of capital;</li> <li>• operational costs;</li> <li>• change in accounting policies;</li> <li>• size of Investment Portfolio;</li> <li>• the time it takes for the Company to have its Investment Portfolio fully invested;</li> <li>• future capital requirements of the Company;</li> <li>• absence of operating performance history of the Company; and</li> <li>• changes in taxation laws and policies.</li> </ul> <p>Investors should bear the above risks in mind when considering whether to participate in the Offer.</p> <p>In addition, investors are strongly advised to regard any investment in the Company as a long term proposition and be aware that substantial fluctuations in the value of their investment may occur during that period. More detail about these and other risks associated with the Company can be found in Section 5.</p>	Section 5

## 2 | DETAILS OF OFFER

### 2.1 WHAT IS THE OFFER?

The Company is offering Shares and Loyalty Options to raise a minimum of \$30 million and up to a maximum of \$100 million. However, the Company reserves the right to accept Oversubscriptions under the Offer to raise up to an additional \$20 million (before the exercise of any Vested Loyalty Options).

For every two Shares issued to an Applicant under the Offer, the Applicant will be issued one Loyalty Option.

Loyalty Options issued to an Applicant will either lapse or Vest on the date that is 6 months after the Closing Date or where this date does not fall on a Business Day, the immediately preceding Business Day (**Vesting Date**). Based on a Closing Date of 31 July 2015, the Vesting Date for the Loyalty Options is Friday, 29 January 2016. The number of Loyalty Options held by an Applicant that will Vest at the Vesting Date will depend on the number of Shares held by the Applicant at the Vesting Date.

If the Applicant holds at the Vesting Date the same or a greater number of Shares as the number of Shares issued to the Applicant under this Prospectus, then all of the Loyalty Options held by the Applicant will Vest at the Vesting Date.

If, on the Vesting Date, the Applicant holds a lesser number of Shares than the number of Shares issued to the Applicant under this Prospectus, then the number of Loyalty Options held by the Applicant that Vest at the Vesting Date will be equal to half of the number of Shares held by the Applicant on the Vesting Date (rounded down to the nearest whole number). For example, if an Applicant is issued 10,000 Shares under this Prospectus, that Applicant will also be issued 5,000 Loyalty Options under this Prospectus. If the Applicant holds 7,000 Shares on the Vesting Date then 3,500 Loyalty Options held by that Applicant will Vest at the Vesting Date (being half the number of Shares held by the Applicant on the Vesting Date). The Applicant's remaining 1,500 Loyalty Options will not Vest at the Vesting Date.

If the Applicant holds no Shares on the Vesting Date then none of the Loyalty Options held by the Applicant will Vest at the Vesting Date.

Loyalty Options that do not Vest on the Vesting Date will lapse with immediate effect on the Vesting Date and will be of no further force or effect.

Each Vested Loyalty Option will be exercisable at \$1.00, and may be exercised at any time after the Vesting Date until 5.00 pm (Melbourne time) on Friday, 30 March 2018.

Vested Loyalty Options are expected to be listed for quotation on ASX within one month after the Vesting Date.

The rights attaching to the Shares and Loyalty Options are set out in Sections 10.3 and 10.4 respectively and the terms and conditions of the Loyalty Options are set out in the Appendix.

The Offer comprises of:

- (a) **Broker Firm Offer**, which is open to persons who have received a firm allocation from their Broker and who have a registered address in Australia or New Zealand. Investors who have been offered a firm allocation by a Broker, will be treated as an Applicant under the Broker Firm Offer in respect of that allocation. Investors should contact their Broker to determine whether they may be allocated Offer Securities under the Broker Firm Offer; and
- (b) **General Offer**, open to investors who have a registered address in Australia or New Zealand.

Applications received from registered holders of CTN Shares as at 7.00pm (Melbourne time) on Wednesday, 1 July 2015 with an address in Australia or New Zealand will be given priority over other Applications.

Applicants under the General Offer and the Broker Firm Offer will be required to pay a Subscription Amount of \$1.00 per Share for each Share they apply for. No amount is payable in respect of each Loyalty Option.

#### DISCRETION UNDER THE OFFER

The Company reserves the right not to proceed with the Offer at any time before the allotment of Offer Securities under the Offer. If the Offer does not proceed, Application Moneys received by the Company will be refunded in full (without interest). The Company takes no responsibility for Application Moneys paid to the Joint Lead Managers or Brokers until these are received by the Company.

Other than in respect of CTN's Application for 30 million Shares pursuant to the Subscription Agreement, the Company reserves the right to decline any Applications in whole or in part without giving any reason. An Application may be accepted by the Company in respect of the full number of Shares specified in the Application or any of them without further notice to the Applicant. Acceptance of an Application will give rise to a binding contract.

The Company reserves the right to close the Offer early, to accept late Applications or extend the Offer without notifying any recipient of this Prospectus or any Applicant.

### 2.2 MINIMUM SUBSCRIPTION

The Minimum Subscription required for the Offer to proceed is \$30 million. If the Minimum Subscription is not obtained within four months after the date of this Prospectus, the Company will repay all Application Moneys in full without interest as soon as practicable or issue a supplementary or replacement prospectus and allow Applicants one month in which to withdraw their Applications and be repaid their Application Moneys in full without interest.

The Company and CTN have entered into a Subscription Agreement pursuant to which CTN has agreed to

subscribe for 30 million Shares (and 15 million Loyalty Options), by way of an Application under this Prospectus, for a total Subscription Amount from CTN of \$30 million, which is equal to the Minimum Subscription.

It is therefore possible that the Company could be admitted to the Official List with:

- CTN as the holder of 30,000,002 Shares (including the 30 million Shares it has committed to apply for pursuant to the Subscription Agreement); and
- only ASX's minimum 'shareholder spread' requirements satisfied (that is, 400 Shareholders each holding 2,000 Shares, pursuant to Condition 7 of ASX Listing Rule 1.1).

In these circumstances, the Company intends to proceed with closing the Offer on the Closing Date, issuing and allotting Shares to Applicants and listing on ASX. In this event, CTN's shareholding in the Company would amount to approximately 97.4%.

If CTN's shareholding is greater than 90% on the Company's admission to the Official List, such that there is a 'free float' of less than 10% of the Shares, the Company will seek to undertake further placements of Shares within 12 to 18 months after admission to the Official List, with the intention that the 'free float' of Shares is more than 10% by the end of this period.

### 2.3 LICENSED DEALERS

Offers under this Prospectus will be made pursuant to an arrangement between the Company and Evans and Partners Pty Ltd under section 911A(2)(b) of the Corporations Act. The Company will only authorise Evans and Partners Pty Ltd to make offers to people to arrange for the issue of the Offer Securities by the Company under the Prospectus and the Company will only issue the Offer Securities in accordance with Applications made pursuant to such offers if they are accepted. To effect this arrangement, the Company has entered into such an agreement with the Joint Lead Managers.

### 2.4 IS THE OFFER UNDERWRITTEN?

The costs of the Offer include the legal, accounting, advisory and other costs associated with the production of the offering documentation. At the time of production of this Prospectus, the costs payable by the Company are estimated to be:

- \$379,880, assuming the Minimum Subscription is raised (through CTN's subscription commitment under the Subscription Agreement) and \$800,000 is raised under the Broker Firm Offer so as to satisfy ASX's minimum 'shareholder spread' requirements (that is, 400 Shareholders each holding 2,000 Shares, pursuant to Condition 7 of ASX Listing Rule 1.1);
- \$2,204,368, assuming the Maximum Subscription is raised (before the acceptance of any Oversubscriptions and assuming \$30 million is raised through CTN's subscription commitment under the Subscription Agreement, \$5 million is raised from CTN Shareholders and \$65 million is raised under the Broker Firm Offer); and
- \$2,725,628, assuming the Maximum Subscription is raised (and all Oversubscriptions are accepted and assuming \$30 million is raised through CTN's subscription commitment under the Subscription Agreement, \$10 million is raised from CTN Shareholders and \$80 million is raised under the Broker Firm Offer).

Provided the Minimum Subscription is raised and the Offer is closed and the Company is admitted to the Official List, the Company will pay the costs of the Offer from the proceeds of the Offer (see Section 6).

The costs incurred by the Company in respect of its proposed public offer of Shares and Options in November / December 2014 (pursuant to the prospectus lodged by the Company on 28 November 2014 that was subsequently withdrawn) have been borne by the Company's sole Shareholder, CTN. None of these expenses are repayable by the Company to CTN, even if the Company is admitted to the Official List following the close of this Offer.

If this Offer is subsequently withdrawn then all costs incurred by the Company relating to this Offer will be borne by CTN.

## 2.6 ALLOCATION POLICY

The Company will give priority to Applications received from registered holders of CTN Shares as at 7.00pm (Melbourne time) on Wednesday, 1 July 2015 with an address in Australia or New Zealand.

Aside from this priority allocation to be given to CTN Shareholders, and CTN's commitment to subscribe for 30 million Shares under the Subscription Agreement, the basis of allocation of Offer Securities under the Offer will be determined by the Joint Lead Managers in consultation with the Company, subject to any firm allocations under the Broker Firm Offer. Certain Applicants nominated by the Company may be given preference in the allotment of Offer Securities.

The Company has agreed to accept CTN's Application for 30 million Shares in full. Therefore, if total Applications are greater than the Maximum Subscription and full Oversubscriptions, CTN's Application for 30 million Shares will not be scaled back.

It is currently expected that certain shareholders, directors and employees of the Contango Group may also submit Applications.

Other than in respect of CTN's Application for 30 million Shares, the Company reserves the right in its absolute discretion to not issue Offer Securities to Applicants under the General Offer and may reject any Application or allocate a lesser number of Offer Securities than those applied for at its absolute discretion.

## 2.7 APPLICATION MONEYS

All Application Moneys will be held by the Company on trust in a separate account until the Offer Securities are issued to successful Applicants.

Application Moneys will be refunded in Australian dollars to the extent that an Application is rejected or scaled back, or the Offer is withdrawn. No interest will be paid on refunded amounts. The Company will retain any interest earned on all Application Moneys.

## 2.8 ASX LISTING

The Company has applied to ASX for admission to the Official List and for its Shares and the Loyalty Options to be granted Official Quotation by ASX. The Company is not currently seeking a listing of its Offer Securities on any financial market other than ASX. Vested Loyalty Options are expected to be listed for quotation on ASX within one month after the Vesting Date.

The fact that ASX may admit the Company to the Official List and grant Official Quotation of the Shares and, after the Vesting Date, the Vested Loyalty Options, is not to be taken in any way as an indication of the merits of the Company or the Offer Securities offered for issue under the Offer. ASX takes no responsibility for the contents of this Prospectus. Normal settlement trading in the Shares, if Official Quotation is granted, will commence as soon as practicable after the issue of holding statements to successful Applicants.

It is the responsibility of Applicants to determine their allocation of Offer Securities prior to trading in them. Applicants who sell Offer Securities before they receive confirmation of their allotment will do so at their own risk.

If ASX does not grant permission for the Shares to be quoted within 3 months after the date of this Prospectus, the Shares and Loyalty Options will not be issued and all Application Moneys will be refunded (without interest) as soon as practicable. ASIC has granted relief to the Company from the requirements of sections 723(3)(b) and 724(1)(b)(ii) of the *Corporations Act 2001* (Cth) to enable Vested Loyalty Options to be quoted on ASX within 7 months after the Closing Date of the Offer.

## 2.9 TAX IMPLICATIONS OF INVESTING IN THE COMPANY

The taxation consequences of an investment in the Offer Securities will depend on your particular circumstances. It is your responsibility to make your own enquiries concerning the taxation consequences of an investment in the Company.

A summary of the Australian taxation implications of investing in the Company is set out in Section 8 and is based on current tax law and Australian Taxation Office rulings. The information in Section 8 is not intended as a substitute for investors obtaining independent tax advice in relation to their personal circumstances.

### 3.3 THE COMPANY'S BUSINESS

#### Investment objectives

The Company's primary objective is to maximise total returns to its Shareholders (via regular income and capital returns) through the investment and management of its Investment Portfolio (which tasks will be undertaken by the Investment Manager in accordance with the investment parameters set out in the Investment Management Agreement). The Company aims to provide Shareholders with:

- ownership of a diversified investment portfolio of approximately 30 to 40 securities predominantly comprising higher dividend yielding entities from within the S&P/ASX 300 Index, excluding the securities of the 30 largest entities by market capitalisation in the S&P/ASX 300 Index;
- attractive total returns on their investment (comprising both regular income and some capital growth) which (in percentage terms) exceed the increase in the ASX All Ordinaries Accumulation Index over the medium term;
- capital preservation; and
- active capital management and a framework for the Company to operate within risk parameters considered appropriate by the Directors.

### 3.4 INVESTMENT STRATEGY

The Company's investment strategy is to construct a diversified portfolio of investments in Australian listed entities, using a disciplined investment process implemented by the Investment Manager.

In this respect, the Company, through its Investment Portfolio, will provide investors with access to a portfolio of listed entities within the S&P/ASX 300 Index, excluding the securities of the 30 largest entities by market capitalisation in the S&P/ASX 300 Index. The specific focus will be on those entities which the Investment Manager expects will pay higher levels of dividends (and/or distribute high levels of franking credits) over time.

The investment strategy will be implemented by the Investment Manager's highly experienced and successful investment team, which is overseen by the Investment Manager's Chief Investment Officer and made up of equity specialists with expertise across Australian and international markets. The Company will have a broad investment universe and will seek to invest capital where the Investment Manager believes the most compelling risk/reward opportunities exist.

Refer to Section 5 for a general summary of the risks associated with the Company's business and its Investment Portfolio.

### 3.5 ASSET CLASSES

The Company may invest in the following assets:

- (a) listed and unlisted securities (includes ordinary shares, preference shares, convertible notes, units and other securities listed on a recognised securities exchange);
- (b) underwriting / sub underwriting of new issues of securities in which investment would be otherwise permitted under the investment mandate;
- (c) cash and cash-like investments (includes bills of exchange, promissory notes, floating rate notes, securities or guaranteed by Federal or State Governments); and
- (d) Derivatives (for example, futures contracts or options traded on ASX and/or options traded on the Australian Options Market in respect of shares that are listed on ASX) with respect to the asset types listed in sub-paragraphs (a) and (b) above.

As noted in Section 4.5, the proposed investment strategy of the Company is the same investment strategy as adopted by the Investment Manager for its Income Generator (Ex-30) Strategy Fund. Consistent with this investment strategy, as at 31 May 2015, the investment portfolio of the Income Generator (Ex-30) Strategy Fund, by asset class, is set out below.

The Directors envisage that once the total net tangible assets available for investment after completion of the Offer have been fully invested, which the Directors expect to occur within approximately 3 months after the trading of Shares commences on ASX, the initial composition of the Investment Portfolio, by asset class, will be materially similar to that which is outlined below.

### 3.6 ASSET TYPES

As at 31 May 2015, the investment portfolio of the Income Generator (Ex-30) Strategy Fund, by asset type, is set out below. The Directors envisage that once the total net tangible assets available for investment after completion of the Offer have been fully invested, which the Directors expect to occur within approximately 3 months after the trading of Shares commences on ASX, the initial composition of the Investment Portfolio, by asset type, will be materially similar to that which is outlined below.

INVESTMENT TYPE	% ALLOCATION (AS AT 31 MAY 2015)

- the relevant entity was not an ASX Top 30 entity; or
- in the opinion of the Investment Manager (acting reasonably), it is appropriate to acquire the relevant securities for the purpose of meeting the investment objectives of the Investment Portfolio.

### 3.7 LEVERAGE

Leverage is a tool which magnifies exposures beyond the assets available to the Company by increasing the level of assets available for investment. It is not proposed that the Company’s Investment Portfolio will be leveraged on a net basis.

### 3.8 DERIVATIVES AND FOREIGN CURRENCY

#### Income Generator (Ex-30) Strategy Fund

As at the date of this Prospectus, the Income Generator (Ex-30) Strategy Fund has not held any Derivative positions and the Investment Manager does not currently consider that there will be a need to do so in the short term.

Whilst there is no leveraged cap in relation to the Income Generator (Ex-30) Strategy Fund’s investment in Derivatives, the investment strategy of the Income Generator (Ex-30) Strategy Fund regarding the use of Derivatives is that this is most likely to occur in the form of selling SPI futures contracts short to protect against a decline in the value of the portfolio in what the Investment Manager perceives to be difficult market conditions.

## Derivatives

The Company's investment strategy for Derivatives is the same as that adopted by the Investment Manager for the Income Generator (Ex-30) Strategy Fund. This includes there being no leveraged cap in relation to the Company's investment in Derivatives.

The Company may use Derivatives as part of its overall investment strategy, including but not limited to:

- (a) hedging (portfolio and/or individual security risk);
- (b) increasing/decreasing overall portfolio exposures;
- (c) investing indirectly where the Investment Manager determines that investing indirectly would, for example, be commercially advantageous, tax efficient or provide a more practicable means of access to the relevant investment; and
- (d) short term portfolio management, for example obtaining economic exposure to the market while physical exposures are being acquired.

The Company may use any type of Derivative (including exchange traded derivatives such as futures and options) and over-the-counter Derivatives (such as swaps, options and forward contracts). Derivatives may have similar effects to leverage as they increase the level of investible assets.

## Counterparties

The Investment Manager engages reputable and regulated investment banks and brokerage firms as Derivative counterparties after conducting due diligence. See Section 5.1 for risks associated with Derivatives.

## Investment Hedging

The Investment Manager may also hedge the exposure of other investments of the Company against investment loss, but is not obliged to do so. There is no guarantee that any hedging will be successful. The cost of implementing hedging may be significant. See Section 5.1 for the risks associated with hedging.

## 3.9 CHANGES TO INVESTMENT STRATEGY

The investment objectives, strategies, guidelines and permitted investments outlined in this Section 3 are expected to be implemented by the Investment Manager upon the listing of the Company on ASX. It is not expected that the Company will change any of these investment objectives, strategies, guidelines and permitted investments. If there are changes, these changes will only be made with the approval of the Board, after consultation with the Investment Manager and, if required by law or by the ASX Listing Rules, the approval of the Shareholders. The Company will notify Shareholders via the Company's website and ASX of any material changes to the Company's investment objectives, strategies, guidelines and permitted investments.

If the Company's Investment Portfolio ceases to comply with the investment objectives, strategies, guidelines or permitted investments outlined in this Section 3, the Investment Manager must use its best endeavours to remedy the non-compliance within a reasonable period

of time of the Investment Manager becoming aware of the non-compliance or a longer period if permitted by the Company. If the Investment Manager fails to remedy a breach, the Company may terminate the Investment Management Agreement.

## 3.10 DIVIDEND POLICY

The Company's dividend policy is to pay annual dividends of not less than 6.5% of the Company's NTA value per Share. For the purposes of applying the Company's dividend policy:

- (a) for the financial year commencing 1 July 2015, the Company's NTA value per Share will be based on the Company's NTA value per Share as at the Issue Date; and
- (b) for each subsequent financial year, the Company's NTA value per Share will be based on the Company's NTA value per Share as at 1 July of each financial year.

The Directors believe this dividend policy is achievable, based on:

- (a) the medium-term sector returns in relation to the midcap sector of the market – the return over the last 5 years for the S&P/ASX Mid-Cap 50 Index has been 10.0% per annum (and has been over 7.2% per annum over the last 10 years);
- (b) the prospect of the Company achieving capital growth on its investment portfolio, which the Company may utilise to pay dividends; and
- (c) a substantial proportion of the Company's investments being cash or in liquid stocks, which will assist the Company in having the required liquidity to achieve its dividend policy, assuming sufficient portfolio yield and capital growth.

Further, since its inception in December 2012, the average actual portfolio yield of the identical strategy adopted in respect of the Income Generator (Ex-30) Strategy Fund has been 6.0% per annum. Whilst this yield is less than the amount of dividends proposed to be paid by the Company under its dividend policy, the Directors believe an annual dividend of 6.5% is achievable, based on the above. By way of comparison, CTN's average actual portfolio yield in the last 5 years has been approximately 3.4% per annum and it has paid an annual dividend to its shareholders of over 7% in each of those years.

It is the current intention of the Company to pay any dividends to Shareholders on a semi-annual basis (that is, after the end of the first half of the relevant financial year and also after the end of that financial year).

It is also the current policy of the Board that all dividends paid to Shareholders will be franked to the maximum extent legally permissible without exposing the Company to liability to pay any franking deficits or any other tax or impost.

Despite the Company's policy, no assurances can be given by any person, including the Directors, about the payment of any dividend or the level of franking on any such dividend. While the Company, and its Investment Manager, will work diligently to achieve the objectives of

the Company's dividend policy, there are many factors that will affect the ability of the Company to pay dividends and, if dividends are paid, the likely quantum of those dividends. Examples of the factors affecting dividend payments are the capital requirements and cash flows of the Company, the Company's expectations of future earnings and future prospects, changes in market and financial conditions, investment portfolio revaluations, changes in laws and accounting standards. Many of those factors are outside the control of the Company.

Therefore, there can be no guarantee that the Company will achieve its stated dividend objective. Actual dividends may be lower than expected, and there may be periods in respect of which dividends are not paid at all.

Please note that the payment of dividends (and all returns to investors under the Offer) is subject to the risks set out in Section 5.

### 3.11 STATUS AS A LISTED INVESTMENT COMPANY

The Company will be listed on ASX as a LIC. Whilst it is anticipated that it will be a LIC for Australian income tax purposes, due to the Company's proposed investment strategy, it is unlikely that investors will access concessional capital gains tax treatment specifically applying to LICs as it is anticipated that the Company will hold its investments on revenue account.

### 3.12 REPORTS TO SHAREHOLDERS

Within 14 days after the end of each month, the Company will release on ASX a statement of the NTA backing of its Shares as at the end of that month. The calculation of the NTA backing of Shares will be made in accordance with the ASX Listing Rules.

The Company will provide to security holders on request, free of charge, a copy of statements released to ASX of the NTA backing of Shares from time to time.

### 3.13 CORPORATE GOVERNANCE

The Board is concerned to ensure that the Company is properly managed to protect and enhance Shareholder interests, and that the Company, its Directors, officers and employees operate in an appropriate governance environment.

The Board recognises the need for the Company to operate with the highest standards of behaviour and accountability.

The Corporate Governance Principles and Recommendations of the ASX Corporate Governance Council (**ASX Recommendations**) articulate a number of core principles and associated recommendations that the ASX Corporate Governance Council believes underlie good corporate governance.

The Board endorses generally the ASX Recommendations and has considered the ASX Recommendations in determining an appropriate system of control and accountability, commensurate with these guidelines, to best fit its business and operations.

The Company will seek to follow the ASX Recommendations and, as required under the ASX Listing Rules, where the Company determines it would

be inappropriate to follow the principles because of its circumstances (including as identified below), the Company will provide reasons for not doing so in its annual report. For further detail on this issue, please refer to the Section below headed 'ASX Recommendations'.

The Board intends to regularly review its corporate governance procedures and, in particular, their appropriateness in the future given the expected changes in the nature and scale of the Company's operations.

### CORPORATE GOVERNANCE POLICIES

The Company intends that the following policies and procedures will be implemented by the Company. The policies and procedures will be available on the Company's website prior to the admission of the Company to the Official List of ASX.

### BOARD CHARTER

The Board Charter formalises the functions and responsibilities of the Board. The Board is ultimately responsible for all matters relating to the running of the Company.

The responsibilities of the Board include:

- (a) protection and enhancement of Shareholder value;
- (b) formulation, review and approval of the objectives and strategic direction of the Company;
- (c) review of all investment activities and results;
- (d) monitoring the financial performance of the Company by reviewing and approving budgets and results;
- (e) approving all significant business transactions including acquisitions, divestments and capital expenditure;
- (f) ensuring that adequate internal control systems and procedures exist and that compliance with these systems and procedures is maintained;
- (g) review of performance and remuneration of Directors;
- (h) review of performance and remuneration of the Investment Manager; and
- (i) the establishment and maintenance of appropriate corporate governance and ethical standards.

### CODE OF CONDUCT

The Code of Conduct for Directors addresses matters relevant to the Company's legal and ethical obligations to its stakeholders. The policy outlines its requirements with respect to:

- (a) relationships;
- (b) compliance with laws and ethics;
- (c) conflicts of interest;
- (d) confidentiality;
- (e) use of Company assets; and
- (f) competition.

## SECURITIES TRADING POLICY

The Securities Trading Policy sets out the Company's policy with regard to trading in Company securities. The policy applies to all Directors and key management personnel (if any) of the Company and their associates. The policy outlines the policy and procedure for all trading by such persons in the Company's securities, including the restrictions on trading (and the blanket prohibition on insider trading), the additional restrictions on short-term trading, the procedures and permissions required if a Director (or senior employee) wishes to trade and the required notifications to the Company and ASX of any trades in the Company's securities.

## AUDIT COMMITTEE CHARTER

The Audit Committee Charter outlines the composition of the Committee, its responsibilities (in respect of the financial management, reporting, audit and the risk management systems of the Company), authorities, meeting requirements and reporting procedures.

## CONTINUOUS DISCLOSURE POLICY

The Continuous Disclosure Policy has been adopted with a view to ensuring that the Company complies with the continuous disclosure requirements of the Corporations Act and the ASX Listing Rules. The policy highlights the requirements for immediate notification, the procedure for disclosing material information, the persons responsible for disclosing information and for ensuring compliance generally by the Company with its disclosure obligations.

## SECURITY HOLDER COMMUNICATION POLICY

The Board aims to ensure that Shareholders are informed of all major developments. The Security holder Communication Policy outlines the processes and responsibilities for reports issued to Shareholders, ASX announcements, annual general meetings, the maintenance of the Company website and the process for responding to requests for information. It also includes a process for review of shareholder communications.

## NOMINATION AND REMUNERATION COMMITTEE CHARTER

The Nomination and Remuneration Committee Charter outlines the composition of the Nomination and Remuneration Committee, its responsibilities (in respect of the structure and composition of the Board and the remuneration policies of the Company), authorities, meeting requirements and reporting procedures.

## ASX RECOMMENDATIONS

Condition 13 of ASX Listing Rule 1.1 provides that the Company must provide a statement disclosing the extent to which it will follow, as at the date of its admission to the Official List of ASX, the ASX Recommendations. If the Company does not intend to follow all the ASX Recommendations on its admission to the Official List of ASX, the Company must identify those recommendations that will not be followed and give reasons for not following them.

The Board is of the view that the Company complies with the ASX Recommendations, except in respect of:

- Recommendation 2.4 (which recommends that a majority of the Board should be independent directors);

- Recommendation 2.5 (which recommends that the chair of the Board should be an independent director);

and the Recommendations made under Principles 2, 4 and 8 relating to the structure and composition of the Board's Audit and Nomination and Remuneration Committees. In each case, the Principles recommend the committees be chaired by an independent director (who is not the Chairman of the Board) and comprise of at least three members, a majority of whom are independent directors.

The size and the current composition of the Company's Board preclude the Company from complying with Principles 2, 4 and 8 relating to the structure and composition of the Board's governance committees. In the immediate future, the Audit Committee is likely to comprise all Board members and the Nomination and Remuneration Committee is likely to comprise all Board members other than Mr George Boubouras, with the respective Committees being chaired by the sole independent Director, Mr Clarke.

On the issue of independence, having regard to the indicators of independence set out in Box 2.3 of the ASX Recommendations, Mr Ian Ferres (Chairman) and Mr Mark Kerr (Director) are not independent directors by virtue of their appointments as directors of CTN, which at the date of this Prospectus is the sole shareholder in the Company. Mr George Boubouras (Director) is not an independent director by virtue of his appointment as an executive of CTN.

Despite the fact that Don Clarke has until his retirement on 30 June 2015 been a long-standing partner of the law firm Minter Ellison and that Minter Ellison has acted as the Company's Australian legal adviser in relation to the Prospectus and the Offer, the Board considers that Don Clarke is an independent director, free from any business or other relationship that could materially interfere with, or reasonably be perceived to interfere with, the independent exercise of his judgement; and that he is able to fulfil the role of an independent director for the purposes of the ASX Recommendations.

The Board considers that, having regard to the wealth of experience and knowledge which Mr Ferres, Mr Clarke, Mr Kerr and Mr Boubouras possess, Mr Ferres is the most suitable person to occupy the position of Chairman of the Company and Mr Kerr and Mr Boubouras, along with Mr Clarke, are each eminently suitable to act as a Director of the Company.

The Board also considers that, having regard to the relationship between CTN and the Company upon the Company's admission to the Official List of ASX, it will be in the best interests of the Company to be guided by the leadership of Mr Ferres, Mr Clarke, Mr Kerr and Mr Boubouras as this will enable the Company to effectively develop and implement its strategic objectives, particularly in the critical short to medium term phase of the Company. The Board considers that the presence of Mr Ferres, Mr Clarke, Mr Kerr and Mr Boubouras on the Board will assist in facilitating these objectives.

Further, the Board considers that any perceived independence-related concerns regarding the position of Mr Ferres as Chairman and Mr Kerr and Mr Boubouras as Directors are countered by the presence of Mr Clarke as an experienced independent Director and the Company's adherence with all ASX Recommendations, other than those referred to above.

## 4 | INVESTMENT MANAGER OVERVIEW

### 4.1 ABOUT THE INVESTMENT MANAGER

The Company's investment strategy is to be implemented by the Investment Manager, Contango Asset Management Limited, which holds Australian Financial Services Licence 237119.

The Investment Manager was established in December 1998 to undertake the management of Australian equities for investment companies and funds. It offers investment management services to wholesale superannuation funds and wealth management institutions as well as financial planning groups and high net worth individuals and shareholders. The Investment Manager currently manages funds across all major sectors of the listed market – large caps (S&P/ASX100), small caps (S&P/ASX Small Ordinaries), and microcaps (those outside the S&P/ASX Small Ordinaries) as well as specialist sector funds such as its income and international fund of funds.

The Investment Manager is a wholly-owned subsidiary of CTN.

As at the date of this Prospectus, CTN is the sole shareholder in the Company and, on completion of the Offer, it is expected that CTN will have a substantial shareholding in the Company. If the aggregate Subscription Amount received from all successful Applicants (including CTN) is \$60 million or less, then it is expected that CTN, through its commitment to subscribe for 30 million Shares for a total Subscription Amount of \$30 million, will remain the majority shareholder in the Company on completion of the Offer.

The management team of the Investment Manager are experienced and successful funds management professionals. Details of each member of the Executive and Investment teams of the Investment Manager are set out in this Section 4.

### 4.2 FEATURES OF THE INVESTMENT MANAGER

The Investment Manager is a specialist equities manager that offers the following products to institutions and professional investors:

- Core Australian Equities
- Small Cap Australian Equities
- Microcap Australian Equities
- Income Focused Australian Equities
- International Fund of Funds

The Investment Manager manages a total of 9 separate investment portfolios, across the 5 different investment products referred to above, as set out in the following table.

INVESTMENT PRODUCT	NUMBER OF INVESTMENT PORTFOLIOS
Core Australian Equities	1
Small Cap Australian Equities	3
Microcap Australian Equities	3
Income Focused Australian Equities	1
International Fund of Funds	1

The products are available through unit trusts or as discrete mandates. The Investment Manager will also tailor investment mandates to meet the specific investment objectives of clients.

The investment portfolios managed by the Investment Manager are based on models that are implemented across various strategies. Each model is prepared by a portfolio manager using the Investment Manager's 'top down' macroeconomic analysis, integrated with its fundamental 'bottom up' stock research (which includes the Investment Manager's stock analysts coverage of various market sectors). In combination, this approach allows the Investment Manager to construct equity portfolios that are well suited to economic and market conditions across the business cycles.

The Investment Manager's allocation objective is to ensure that individual investment opportunities (and subsequent divestments from such opportunities) are allocated amongst clients with a similar investment strategy on a pro rata basis that reflects the funds under management of each individual client relative to the total funds under management of all clients with the same investment strategy.

The Investment Manager has in place a comprehensive conflicts policy which accords with its various obligations and duties as the holder of an AFSL.

### 4.3 INVESTMENT MANAGER'S STRATEGIES

The Investment Manager is a 'top down business cycle' manager. It believes that a detailed understanding of global economic conditions and how those considerations impact on financial markets is important in determining which sectors and stocks will outperform the market.

Accordingly, the Investment Manager's macroeconomic research effort focuses on forecasting future domestic and global economic conditions and assessing their impact on the performance of sectors and stocks.

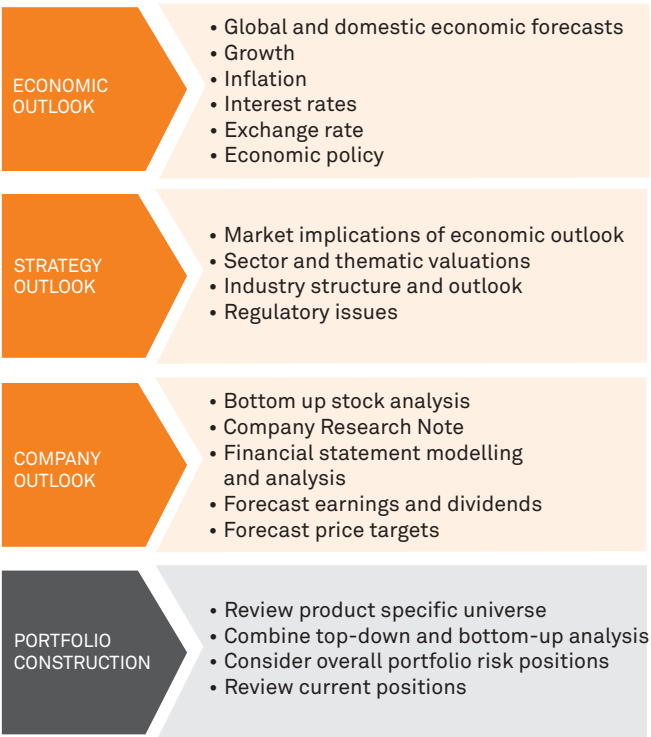

The Investment Manager intends to utilise these relationships to guide its decisions on the size, allocation

to cash and the sector biases within the Investment Portfolio. These allocations will vary over the course of the cycle to reflect the differing trade-offs between risk and return.

The top-down approach of the Investment Manager is complemented by a disciplined ‘bottom up’ stock selection process, which involves rigorous quantitative and qualitative fundamental analysis in respect of each of the stocks identified for potential investment. This includes detailed stock modelling, in depth company research notes and reports complemented with management meetings. When constructing a diversified portfolio, the Investment Manager also considers the portfolio’s overall risk positions including stock, sector and thematic risks.

The effective and disciplined investment process the Investment Manager applies to its investment portfolios is summarised in the following chart:

AN EFFECTIVE AND DISCIPLINED INVESTMENT PROCESS

4.5 HISTORICAL PERFORMANCE OF FUNDS UNDER THE MANAGEMENT OF THE INVESTMENT MANAGER (TO 31 MAY 2015)

The information on the past performance of the Income Generator (Ex-30) Strategy Fund (under the management of the Investment Manager), as outlined below, should not be relied upon as an indication of the future performance of the Company.

The Company believes that the disclosure of the historical performance of the Income Generator (Ex-30) Strategy Fund (under the management of the Investment Manager) is helpful to investors to become aware of the knowledge, experience and track record of the Investment Manager in constructing and managing an investment portfolio that is similar to the Company's Investment Portfolio. The Company therefore believes that the disclosure should assist investors and their advisers in deciding whether or not to invest in the Company which has engaged the Investment Manager to undertake the same task in relation to the Company's Investment Portfolio.

The historical performance information below is based on results to and including 31 May 2015. As it relates to the Income Generator (Ex-30) Strategy Fund (managed by the Investment Manager), this information is calculated based on daily portfolio values and is calculated net of fees and expenses. The historical performance information below has been calculated using the performance of the Income Generator (Ex-30) Strategy Fund less a 0.95% per annum management fee (where the management fee is inclusive of GST net of reduced input tax credits).

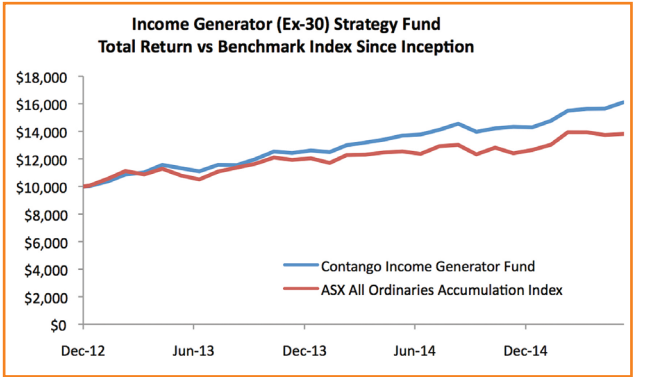

The Investment Manager currently manages the Income Generator (Ex-30) Strategy Fund using precisely the same investment strategy that it proposes to use in respect of the Company's Investment Portfolio.

The proposed investment strategy for the Company (as outlined in Section 3.4) is to construct a diversified portfolio of investments in Australian listed entities within the S&P/ASX 300 Index, excluding the securities of the 30 largest entities by market capitalisation in the S&P/ASX 300 Index.

The index returns have been prepared by the Investment Manager from data obtained from the relevant index providers. Those index providers have not consented to the use of the data in the Prospectus.

INCOME STRATEGY	1 YEAR (% P.A) RETURN	2 YEAR (% P.A) RETURN	SINCE INCEPTION (21/12/2012) (% P.A) RETURN
Income Generator (Ex-30) Strategy Fund	18.1%	18.8%	20.7%
ASX All Ordinaries Accumulation Index	10.1%	13.1%	14.2%
Outperformance	8.0%	5.5%	6.5%
S&P/ASX MidCap 50 Accumulation Index	19.6%	18.4%	18.2%
Outperformance*	(1.5)%	0.4%	2.5%

The graph below shows the total return for each financial year, net of fees and expenses, of \$10,000 invested in the Income Generator (Ex-30) Strategy Fund since its inception compared to the ASX All Ordinaries Accumulation Index.

The actual performance of the Investment Portfolio will depend upon the success of the investment strategy adopted by the Investment Manager and any fees payable to the Investment Manager (refer to Section 9.1 for more details on the fees payable to the Investment Manager).

The information on the past performance of the Income Generator (Ex-30) Strategy Fund (under the management of the Investment Manager) included in this Section 4.5 should not be relied upon as an indication of the future performance of the Company.

The proposed investment strategy of the Company is the same investment strategy as adopted by the Investment Manager for the Income Generator (Ex-30) Strategy Fund, but is not the same as all of the investment strategies pursued by the Investment Manager in respect of other funds under its management.

The actual return of an investment in the Company will depend upon its value and any dividends payable and could differ materially from the historical returns of the above funds.

4.6 THE INVESTMENT TEAM

The Investment Manager's team comprises 12 experienced investment professionals, including equity specialists with expertise across Australian and global markets. There is also an additional 7 personnel in various functions including risk, compliance and support staff.

With an average industry experience of 19 years, the members of the investment team have each seen multiple market cycles.

The investment team members set out below have all had direct involvement in the execution of the strategies pursued by the Investment Manager. The Company will be able to draw upon and benefit from this depth and breadth of experience in the construction and maintenance of the Investment Portfolio.

\*A negative figure for 'outperformance' reflects the underperformance of the Income Generator (Ex-30) Strategy Fund compared with the S&P/ASX MidCap 50 Accumulation Index.

---

Each of the investment team members set out below are experts in a particular industry sector or possess one or more specific product skills (e.g. listed market dealing, transaction structuring, quantitative analysis and legal). With experience across a broad range of industry sectors, as well as in the transactional requirements for undertaking equity investments, the Investment Manager believes that it is well placed to manage the Investment Portfolio.

Each member of the investment team will be available to devote the amount of time required for the Investment Manager to properly perform its functions in managing the Investment Portfolio in accordance with the Investment Management Agreement.

## 5 | RISKS

### 5.1 INTRODUCTION

Investing in the Offer Securities involves a high degree of risk. You should carefully consider the risks involved in acquiring the Shares (as well as any Shares acquired as a result of the exercise of Vested Loyalty Options), including those risks described below and all of the other information set out in this Prospectus before deciding to invest in the Offer Securities.

If any of the events or developments described below occur, the Company's business, financial condition or results of operations could be negatively affected. In that case, the market price of the Offer Securities could decline, and you could lose part or all of your investment.

You should note that on quotation of the Shares on the Official List of ASX, the market price may differ significantly to the Issue Price paid for the Shares and/or may not reflect the fair value of the Investment Portfolio calculated by the Investment Manager and the Company.

While not exhaustive, this Section 5 identifies the risks that the Directors regard as the major risks associated with an investment in the Company. You should read the whole of this Prospectus (with particular emphasis on this Section 5) in order to fully appreciate the risks of an investment in the Offer Securities, and the manner in which the Company intends to operate, before any decision is made to subscribe for Offer Securities.

While prudent management and investment techniques may be effective in reducing the risks to Shareholders (and Loyalty Option holders), no assurances can be given by the Company as to the future success of the Company's investment strategies, any particular investment decisions or, importantly, the investment returns or the market price at which the Offer Securities may trade on ASX. To that extent, an investment in the Company ought to be regarded as speculative and, as with any equity investment, substantial fluctuations in the value of that investment may and often do occur.

If you are considering an investment in the Company, you are also strongly advised to consider whether the Offer Securities are a suitable investment having regard to your personal investment objectives and financial circumstances (and the risk factors set out in this Section 5). If you are in any doubt about the suitability of an investment in the Company, you should consult with your financial adviser, stockbroker, solicitor, accountant or other professional adviser before deciding whether to apply for the Offer Securities.

### 5.2 GENERAL AND INVESTMENT STRATEGY RISKS

The operating results and profitability of the Company are sensitive to a number of factors including those set out below. The matters identified below are not an exhaustive list and should be carefully considered in evaluating the Company and its prospects.

The Company should not be seen as a predictable, low risk investment. The Company's investments will primarily be in domestic equity securities and these can be considered as having a higher risk profile than cash, fixed interest or a diversified portfolio of larger capitalised equities. None of the Company, the Investment Manager nor the Joint Lead Managers guarantee the return of capital, any rate of return in terms of income or capital or the investment performance of the Company.

TYPE OF RISK	DESCRIPTION OF RISK
LIQUIDITY RISK	<p>The Company will be a LIC. The ability of a Shareholder (and Optionholder) to sell Offer Securities on ASX will be a function of the turnover or liquidity of the Offer Securities at the time of sale. Turnover is a function of a wide variety of factors including the size of a company and the cumulative investment intentions of all current and possible investors in the Company at any one point in time.</p> <p>CTN has agreed to apply for 30 million Shares under this Prospectus. The Company has agreed to accept that Application once received. It is possible that on the Company's admission to the Official List, CTN will hold a substantial majority of the total number of Shares on the Company's admission to the Official List (possibly as high as 97.4% of the total Shares).</p> <p>Given CTN's commitment to apply for 30 million Shares, the nature of the Company, and the traditionally lower trading volumes experienced by LICs, it is likely that there will be a low level of liquidity in trading of the Offer Securities. As a result, Shareholders (and Optionholders) may not be able to sell their Offer Securities at the time and in the volumes or at a price they desire.</p>
RISKS APPLICABLE TO THE COMPANY	<p><b>General Investment Risk</b></p> <p>The investment returns of the Company may be subject to general economic risks (including interest rates, unemployment, inflation and economic growth), market condition risks and government policy risks.</p> <p>The value of the Company's investments can fall due to operational and financial circumstances such as circumstances affecting an investment's underlying businesses (including their level and availability of debt and interest rates), their profits, earnings and cash flows.</p> <p><b>Counterparty and Service Provider Risk</b></p> <p>Default by any of the Company's counterparties or service providers (e.g. custodians) may cause losses to the Company. The Investment Manager will seek counterparties and service providers which have a low risk of defaulting, although these risks cannot be eliminated entirely.</p> <p><b>Derivatives</b></p> <p>The Company may trade in Derivatives (including futures, foreign exchange contracts and options) which are sophisticated financial products. The use of Derivatives also gives rise to counterparty risks as set out above.</p> <p><b>Past Performance and History</b></p> <p>There can be no assurance that the Company will achieve its investment objectives. The Company's and the Investment Manager's past performance information should not be relied upon as (and is not) an indicator of future performance.</p>
INVESTMENT MANAGER RISK	<p>The success and profitability of the Investment Portfolio in part will depend upon the ability of the Investment Manager to make investments that increase in value over time and the retention of the Investment Manager as manager of the Investment Portfolio (together with the retention of the Investment Manager's investment team).</p> <p>The following factors may affect the Investment Manager's performance:</p> <ul style="list-style-type: none"> <li>• poor investment strategy and securities selection in that the Investment Manager may be unable to construct a portfolio in accordance with the Company's proposed investment objectives, strategy, guidelines and permitted investments and/or, even if it does so, there can be no guarantee that the investment strategy will be successful or that the Investment Manager will not make investment decisions that result in unprofitable outcomes;</li> <li>• changing market conditions such as negative changes in market sentiment;</li> <li>• loss of key clients and/or personnel;</li> <li>• market perception of the Investment Manager and its funds management business; and</li> <li>• market and systemic risk.</li> </ul> <p>While the Investment Manager will seek to mitigate the risks that may adversely affect its investment performance or its investment decisions, through implementation of internal risk management policies and procedures designed to monitor and address these risks, there can be no guarantee the Investment Manager will achieve any particular investment return within the Investment Portfolio or that its future performance will match or exceed its past performance.</p>

TYPE OF RISK	DESCRIPTION OF RISK
	<p>The Investment Manager is required to hold an AFSL to operate its business. The ability of the Investment Manager to continue managing the Investment Portfolio is dependent on the maintenance of its AFSL. To the extent that the Investment Manager should lose or have restrictions imposed on its AFSL to prevent it from continuing to manage the Company's investments, the Company will need to identify and engage a suitably qualified and experienced investment manager to implement the Company's investment strategy. Similarly, if the Investment Management Agreement is terminated for any other reason, the Company will need to identify and engage a suitably qualified and experienced investment manager.</p> <p>There can be no guarantee that the Company will be able to identify an appropriately qualified replacement for the Investment Manager or, if such person or entity is appointed, that it will be able to perform its duties as investment manager under the Investment Management Agreement to the standard required by the Company or to a level that matches or exceeds the performance of the Investment Manager. The Investment Management Agreement is able to be terminated by the Investment Manager on 3 months' notice at any time during the term of the Investment Management Agreement. See Section 9.1 for further details of the terms of the Investment Management Agreement.</p> <p>As a result the Company is exposed to the risk of having to source an alternative investment manager or changing its activities if the Investment Manager terminates the Investment Management Agreement.</p>
INVESTMENT RISK	<p>There is a risk that the Offer Securities and/or the Company's investments will fall in value over the short or long term. Individual security prices may fluctuate and under perform other asset classes over time. Investors in the Company are exposed to this risk through both their holding in the Offer Securities and through the Company's investments.</p> <p>Also, the Shares of the Company may trade on ASX at a discount to the net tangible asset value of the Investment Portfolio on a per Share basis and the performance of the Shares may not be correlated with the performance of the Investment Portfolio.</p> <p>During the period that the Investment Manager constructs the Investment Portfolio the risk exists that movements in the market may result in an Investment Portfolio with a cost base different to the cost base that would apply if the Company listed with a fully constructed Investment Portfolio.</p>
CONCENTRATION RISK	<p>There is potential for volatility due to a lack of diversity within the Company's Investment Portfolio. The lower the number of investments, the higher the concentration and, in turn, the higher potential volatility.</p>
DERIVATIVES RISK	<p>There is a risk that the use of Derivatives can have a negative impact due to an adverse movement in the underlying asset or where the position is difficult or costly to reverse or maintain.</p> <p>Derivative instruments include futures, options on futures, over-the-counter options, exchange-traded options, swaps and forward contracts.</p> <p>The value of all Derivatives is 'derived' from underlying physical assets, such as company shares, commodities and bonds.</p> <p>Derivatives such as futures and options may be used by the Company:</p> <ul style="list-style-type: none"> <li>• to offset the risk of price variations of securities;</li> <li>• as an alternative to purchasing the physical security;</li> <li>• to seek to take advantage of any opportunities for profit which may exist in the market from time to time; and</li> <li>• in the management of currency and interest rate risk.</li> </ul> <p>In all cases there will be cash and/or underlying assets available to meet the exposure positions of the derivative instruments.</p> <p>The use of derivatives potentially exposes the Company to counterparty, legal and documentation risks.</p>

TYPE OF RISK	DESCRIPTION OF RISK
REGULATORY RISK	<p>The Company is subject to a range of regulatory controls imposed by government (federal and state) and regulatory authorities (for example, ASX and ASIC). The relevant regulatory regimes are complex and are subject to change over time depending on changes in the laws and the policies of the governments and regulatory authorities.</p> <p>The Company is exposed to the risk of changes to the applicable laws and/or the interpretation of existing laws which may have a negative effect on the Company, its investments and/or returns to Shareholders or the risks associated with non-compliance with these laws (including reporting or other legal obligations). Non-compliance may result in financial penalties being levied against the Company.</p>
PERSONNEL RISK	<p>The Investment Manager's performance is largely dependent on the skills and efforts of its investment team. The Investment Manager's ability to perform effectively is dependent on its ability to retain and motivate its investment team. There can be no guarantee that the Investment Manager will be able to retain its investment team or that the Investment Manager will be able to attract and retain management personnel of sufficient experience and expertise to manage the Investment Portfolio.</p>
POTENTIAL CONFLICTS OF INTEREST	<p>The Investment Manager is, and may continue to be, the manager or adviser to other funds and investment vehicles. It is possible therefore that the Investment Manager may, in the course of its business, have potential conflicts of interest which may not be managed effectively and therefore may be detrimental to the Company and consequently Shareholders and Optionholders.</p>
COUNTERPARTY AND CREDIT RISK	<p>Counterparty risk is the risk that a counterparty, such as a clearing house prime broker or custodian, will not be able to meet its obligations under a contract.</p> <p>The investment strategies of the Company and the Investment Manager rely on the successful performance of contracts with external parties, including securities brokers and service providers. There is a risk that these counterparties may not meet their responsibilities, including as a result of insolvency, financial distress or liquidation of the counterparty, which may expose the Company to the risk of loss. In the case of a default, the Company could also become subject to adverse market movements while replacement transactions are executed.</p> <p>The ability of the Company to transact business with one or more counterparties, the lack of any independent evaluation of such counterparties' financial capabilities and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Company.</p>
INTEREST RATE RISK	<p>Changes in short and long term interest rates can have a positive or negative impact on investment returns.</p>
DIVIDEND RISK	<p>The ability of the Company to pay a fully or partly franked dividend is contingent on it making taxable profits. The Company's taxable profits may be volatile, making the reliable forecasting and payment and franking of dividends difficult and unpredictable.</p> <p>No guarantee can be given concerning the future earnings of the Company, the earnings and capital appreciation of the Company's Investment Portfolio or the return of the capital invested by Shareholders. Specifically, the Investment Manager may make poor investment decisions resulting in the returns being inadequate to pay an annual dividend to Shareholders of an amount equal to 6.5% of the Company's NTA value (per Share) as outlined in the Company's dividend policy, or at all.</p>
OPERATIONAL COSTS	<p>Operational costs for the Company as a proportion of total assets will be affected by the level of acceptance of the Offer. Operational costs representing a greater proportion of total assets will reduce the operating results of the Company and its ability to make dividend payments.</p>
ACCOUNTING POLICY RISK	<p>Changes to accounting policies may influence the approach in determining the fair value of investments held by the Company and may have a detrimental impact on the fair value of investments.</p>

TYPE OF RISK	DESCRIPTION OF RISK
FUTURE CAPITAL REQUIREMENTS OF THE COMPANY	<p>There can be no assurance that the Company will not need to raise additional capital to fully exploit business opportunities available to it. There can be no assurance that the Company will be able to raise such capital on favourable terms (or at all) or, if it is able to raise the capital, that it will be able to invest that capital efficiently.</p> <p>If the Company is unable to obtain or invest such additional capital, the Company may be required to reduce the scope of its investment activities or forego an investment opportunity, which could adversely affect its business, financial condition and results of operation.</p>
MARKET RISK	<p>Investment returns are influenced by general market factors both in Australia and internationally and by factors specific to each security. In particular, the market prices of the shares of many listed entities have in recent times experienced wide fluctuations which in many cases reflect a diverse range of non-entity specific influences including:</p> <ul style="list-style-type: none"> <li>• general economic conditions, including changes in inflation rates, short-term or long-term interest rates, exchange rates and commodity prices;</li> <li>• variations in the local and global markets for listed securities;</li> <li>• domestic and international economic conditions;</li> <li>• changes in investor confidence generally and in relation to specific sectors of the market;</li> <li>• natural disasters, global hostilities and acts of terrorism;</li> <li>• changes to government policy, legislation or regulation including in relation to taxation and other policy changes; and</li> <li>• the inclusion or removal of stocks from major market indices.</li> </ul> <p>The Investment Manager proposes that the Investment Portfolio will be constructed so as to reduce market risks but those risks cannot be entirely eliminated. In a strong equity market, the Investment Portfolio may underperform the broader market, as the Investment Portfolio will have limited exposure to market risk.</p> <p>As a result, no guarantee can be given in respect of the future earnings of the Company or the earnings and capital appreciation of the Company's investments.</p>
NO OPERATING OR PERFORMANCE HISTORY OF THE COMPANY	<p>The Company is a new entity with no financial, operating or performance history and no track record which can be used by investors to make any form of assessment of the ability of the Company or Investment Manager to achieve the objectives set out in the Prospectus.</p> <p>The information in this Prospectus about the investment objectives of the Company are not forecasts, projections or the result of any simulation of future performance. There is a risk that the Company's investment objectives will not be achieved.</p>
CHANGES IN TAXATION LAWS AND POLICIES	<p>Tax laws are in a continual state of change and reform which may affect the Company and its Shareholders and Optionholders. Tax liabilities are the responsibility of each individual investor. There may be tax implications arising from ownership of the Offer Securities, the receipt of franked and unfranked dividends (if any) from the Company, receiving returns of capital and the disposal of the Offer Securities.</p> <p>Changes to tax laws may adversely affect the Company's financial performance and/or the returns achieved by investors. Dividends paid by the Company to certain investors may not be recognised as frankable by the Australian Taxation Office.</p> <p>The Company is not responsible for either taxation or penalties incurred by investors. You should carefully consider these tax implications and obtain advice from an accountant or other professional tax adviser in relation to the application of the tax legislation to your investment in the Company.</p>

### 5.3 TIMEFRAME FOR INVESTMENTS

Investors are strongly advised to regard any investment in the Company as a long term proposition and to be aware that, as with any equity investment, substantial fluctuations in the value of their investment may occur.

In addition, the above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Offer Securities. Therefore, there is no guarantee with respect to the payment of dividends, returns of capital or the market value of the Offer Securities.

You should consider that an investment in the Company is speculative and consult your professional advisers before deciding whether to apply for the Offer Securities.

## 6.2 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

Estimates and judgements are based on past performance and management's expectations for the future, which, by definition, will seldom represent actual results. Estimates and assumptions based on future events have a significant inherent risk, and where future events are not anticipated there could be a material impact on the carrying amounts of the assets and liabilities discussed below:

- The pro forma statements of financial position have been prepared on the basis of the following assumptions:
  - the column headed 'Pro Forma Minimum Subscription and minimum shareholder spread' has been prepared on the basis of subscriptions of 30,800,000 Shares at an Issue Price of \$1.00 and assuming the Minimum Subscription is raised through CTN's subscription commitment under the Subscription Agreement and \$800,000 is raised under the Broker Firm Offer so as to satisfy ASX's minimum 'shareholder spread' requirements (that is, 400 Shareholders each holding 2,000 Shares, pursuant to Condition 7 of ASX Listing Rule 1.1);
  - the column headed 'Pro Forma Maximum Subscription (before accepting any Oversubscriptions)' has been prepared on the basis of subscriptions of 100,000,000 Shares at an Issue Price of \$1.00 and assuming \$30 million is raised through CTN's subscription commitment under the Subscription Agreement, \$5 million is raised from CTN Shareholders and \$65 million is raised under the Broker Firm Offer;
  - the column headed 'Pro Forma Maximum Subscription (after accepting all Oversubscriptions)' has been prepared on the basis of subscriptions of 120,000,000 Shares at an Issue Price of \$1.00 and assuming \$30 million is raised through CTN's subscription commitment under the Subscription Agreement, \$10 million is raised from CTN Shareholders and \$80 million is raised under the Broker Firm Offer.
- The expenses relating to the Offer (including the Joint Lead Managers' fees, professional adviser fees, and Share Registry fees) to be paid or reimbursed by the Company to the Investment Manager are recorded as a liability.
- The expenses incurred by the Company in respect of its proposed public offer of Shares and Options in November / December 2014 (pursuant to the prospectus lodged by the Company on 28 November 2014 that was subsequently withdrawn) have been borne by the Company's sole Shareholder, CTN, and are not repayable by the Company.
- Any interest earned by the Company during the Offer period has not been taken into account.

- Income tax benefits accruing from the deductibility of expenses incurred during the Offer have been taken to account assuming that future taxable income will be earned by the Company.
- All subscribers for Shares are Australian residents.
- The Company will be registered for GST in Australia and eligible to claim reduced input tax credits in accordance with the GST Act on eligible expenses incurred during the Offer.
- The tax benefit is applied to the expenses net of any GST refundable. The tax benefit is calculated at the prevailing company tax rate which is currently 30%. For example, a cash outlay of \$110 dollars (GST inclusive) which the Company can claim a 75% reduced input tax credit on is presented in these statements as follows:

	\$
Expenses (net of taxes)	71.75
GST receivable	7.50
Deferred tax asset (tax benefit)	30.75
	<b>110.00</b>
Calculated as follows:	
Cash Outlay (GST inclusive)	110.00
Less: Reduced Input Tax Credit	(7.50)
Net expense (pre DTA)	102.50
Less: Tax benefit applied (at 30%)	(30.75)
Expenses (net of taxes)	<b>71.75</b>

### 6.3 CAPITAL STRUCTURE AND CASH POSITION

The capital structure of the Company on completion of the Offer is set out in the table below.

	MINIMUM SUBSCRIPTION AND MINIMUM 'SHAREHOLDER SPREAD'	MAXIMUM SUBSCRIPTION (BEFORE ACCEPTING ANY OVERSUBSCRIPTIONS)	MAXIMUM SUBSCRIPTION (AFTER ACCEPTING ALL OVERSUBSCRIPTIONS)

### 6.4 EXPENSES OF THE OFFER

The expenses of the Offer (net of GST) are estimated in the table below (based on the assumptions in Section 6.2).

	MINIMUM SUBSCRIPTION AND MINIMUM 'SHAREHOLDER SPREAD'	MAXIMUM SUBSCRIPTION (BEFORE ACCEPTING ANY OVERSUBSCRIPTIONS)	MAXIMUM SUBSCRIPTION (AFTER ACCEPTING ALL OVERSUBSCRIPTIONS)
Fees paid to Joint Lead Manager(s)	20,500	1,793,750	2,306,250

<b>Total estimated expenses</b>	<b>379,880</b>	<b>2,204,368</b>	<b>2,725,628</b>

To the extent that the Investment Manager pays some or all of the above expenses on behalf of the Company, the Company will be required to reimburse the Investment Manager for all expenses paid on its behalf if, and only if, the Shares (and Loyalty Options) have been issued pursuant to the Offer.

### 6.5 PROPOSED ACCOUNTING POLICIES AND NOTES TO THE ACCOUNTS

A summary of the significant accounting policies which have been adopted by the Company in the preparation of the pro forma statement of financial position set out above or which will be adopted and applied in preparation of the financial statements of the Company for the period ending 30 June

2015 and subsequent financial years is set out in this Section 6.5.

#### (a) Basis of preparation

The pro forma statement of financial position has been prepared in accordance with Australian Accounting Standards, Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act.

The pro forma statement of financial position has been prepared on the basis of assumptions outlined in Section 6.2. In addition, the pro forma statement of financial position has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets described in the accounting policies.

The financial information presented in the Prospectus is presented in an abbreviated form and does not contain all the disclosures that are usually provided in an annual report prepared in accordance with the Corporations Act.

The pro forma statement of financial position has been prepared for the Company. The Company is a company limited by shares incorporated and domiciled in Australia.

## **(b) Financial Instruments**

### *Investments*

Investments in listed securities are carried at fair value through profit and loss. They are measured at their fair value at each reporting date and any increment or decrement in fair value from the prior period is recognised in the profit and loss of the current period. Fair value of listed investments are based on current bid prices at each reporting date.

Non-listed investments for which fair value cannot be reliably measured are carried at cost and tested for impairment.

### *Financial liabilities*

Financial liabilities include trade payables, other creditors and loans from third parties.

Non-derivative financial liabilities are recognised at amortised cost, comprising the original debt less principal payments and amortisation.

Financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

## **(c) Revenue recognition**

Revenue from the sale of investments is recognised when the significant risks and rewards of ownership of the investments have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest revenue is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend revenue is recognised when the right to receive a dividend has been established.

All revenue is stated net of the amount of goods and services tax (GST).

## **(d) Cash and cash equivalents**

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the Statement of Financial Position.

## **(e) Taxes**

Current income tax expense or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

The statement of financial position approach is adopted under which deferred tax assets and liabilities are recognised for temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. No deferred tax asset or liability is recognised in relation to temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

## **(f) Provisions**

Provisions are recognised when the Company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

## **(g) Profit and loss appropriation**

Monthly profits (or losses) are transferred to profits reserve (or accumulated losses) at the completion of each month. At the end of the year, the Directors will consider the requirements of future dividend payments and transfer from the profits reserve to the dividend payment reserve an amount considered necessary to meet these future payments.

## **(h) Critical estimate and assumptions**

Estimates and judgements are based on past performance and management's expectations for the future, which, by definition, will seldom represent actual results. Estimates and assumptions based on future events have a significant inherent risk, and where future events are not as anticipated there could be a material impact on the carrying amounts of the assets and liabilities discussed above.

## **6.6 PROCEEDS OF THE OFFER**

The net proceeds of the Offer, after the payment or reimbursement of the expenses of the Offer, will be used for investment opportunities that meet the Company's investment objectives as set out in Section 3.3 and to meet the general operating expenses of the Company (including payment of the expenses of administering the Investment Portfolio such as the fees payable to the Investment Manager).

- The Statement of Financial Position as at 31 March 2015

The historical financial information has been prepared in accordance with the stated basis of preparation, being the recognition and measurement principles contained in Australian Accounting Standards and the company's adopted accounting policies. The historical financial information has been extracted from the financial report of Contango Income Generator Limited for the period ended 31 March 2015, which was audited by Pitcher Partners in accordance with the Australian Auditing Standards. Pitcher Partners issued an unmodified audit opinion on the financial report. The historical financial information is presented in the Prospectus in an abbreviated form, insofar as it does not include all of the presentation and disclosures required by Australian Accounting Standards and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the *Corporations Act 2001*.

### *Pro Forma historical financial information*

You have requested Pitcher Partners Corporate Pty Ltd to review the pro forma historical Statement of Financial Position as at 31 March 2015 referred to as "the pro forma historical financial information".

The pro forma historical financial information has been derived from the historical financial information of Contango Income Generator Limited, after adjusting for the effects of pro forma adjustments described in section 6.2 of the Prospectus. The stated basis of preparation is the recognition and measurement principles contained in Australian Accounting Standards applied to the historical financial information and the events or transactions to which the pro forma adjustments relate, as described in section 6.2 of the Prospectus, as if those events or transactions had occurred as at the date of the historical financial information. Due to its nature, the pro forma historical financial information does not represent the Company's actual or prospective financial position.

For the purposes of preparing this report we have performed limited assurance procedures in relation to pro forma historical financial information in order to state whether on the basis of the procedures described, anything comes to our attention that would cause us to believe that the pro forma historical financial information is not prepared in all material respects, by the directors in accordance with the stated basis of preparation. As stated in Section 6.1 of the Prospectus, the stated basis of preparation is the application of pro forma adjustments, determined in accordance with Australian Accounting Standards and the Company's accounting policies to illustrate the effects of the Offer on the Company as described in section 6.1 of the Prospectus.

We have conducted our engagement in accordance with the ASAE 3450 *Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information*, AGS1062 *Reporting in connection with a Proposed Fundraising* and Regulatory Guide 170 *Prospective Financial Information*.

The procedures we have performed were based on our professional judgement and included:

- Consideration of the pro forma adjustments described in the prospectus;
- Enquiry of directors, management, personnel and advisors;
- A review of the accounting policies for consistency of application.

The procedures performed in a limited assurance engagement vary in nature from, and are less in extent than for, an audit. As a result, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed an audit. Accordingly, we do not express an audit opinion about whether the pro forma historical financial information is prepared in all material respects, by the directors in accordance with the stated basis of preparation.

#### *Directors' responsibility*

The Directors of Contango Income Generator Limited are responsible for the preparation of the historical financial information and pro forma historical financial information, including the selection and determination of pro forma adjustments made to the historical financial information and included in the pro forma historical financial information. ## 8 | TAXATION

The following is a general discussion on the key Australian taxation issues arising as a direct result of investment in the Company.

The information is provided in relation to Australian resident investors who are issued Shares under this Offer and hold Shares on capital account for income tax purposes. It does not apply to Australian resident investors who hold their Shares on revenue account or as trading stock and does not apply to foreign resident investors.

The discussion is based on Australian taxation laws, announcements and practices currently operative at the date of this Prospectus. The discussion is general in nature and is not intended to cover all of the potential taxation consequences that could arise for any particular investor.

Tax law is complicated and tax outcomes rely heavily on the facts and circumstances of each party involved. As such, this discussion should not be relied on and investors should obtain independent professional advice on their own situation concerning the taxation consequences of their investment.

### **Tax implications – Contango Income Generator Limited**

The Company is an Australian resident company that will be listed on ASX. The Company will be taxed at the prevailing company tax rate which is currently 30%.

The Company will be required to maintain a franking account and intends to pay franked semi-annual dividends to shareholders. The Board intends to frank dividends at the maximum extent permissible under law without exposing the Company to liability to pay franking deficit tax or any other tax or impost.

In order for the Company to qualify for franking credits and the corresponding tax offset in respect of its share investments, it must satisfy the 'holding period' rule which requires that shares be held 'at risk' for a period of not less than 45 days (not counting the day of acquisition or disposal). It is the Company's intention to satisfy the holding period rule where it is able to do so.

### **Tax implications – Australian resident investors holding their investment on capital account**

#### **DIVIDENDS**

Dividends should be included in the assessable income of the investor in the year in which the Company pays a dividend.

Generally, where the Company pays a franked dividend the investor is required to include an amount equal to the franking credits attached to the dividend in their assessable income and is generally entitled to a tax offset

equal to the franking credits attached to the dividend. The tax offset can be applied to reduce the tax payable on the investor's taxable income. Individuals and complying superannuation funds are entitled to a refund of excess franking credits where the tax offset from the franking credit exceeds the investor's tax liability.

The comments above regarding the application of the holding period rule to the Company in respect of its share investments are also applicable to investors in the Company's Shares. The holding period rule does not apply to Shareholders who are individuals and are entitled to tax offsets that total no more than \$5,000 for the relevant income year.

Investors should obtain their own tax advice to determine if these requirements have been satisfied.

#### **STATUS AS A LISTED INVESTMENT COMPANY**

The Company is an Australian resident and will be listed on ASX as a LIC.

It is anticipated that the Company will also qualify as a LIC for income tax purposes. Broadly, a LIC for income tax purposes is an Australian resident listed company where at least 90% of the market value of its capital gains tax assets consist of permitted investments. Permitted investments include shares, units, options, rights or similar interests as well as financial instruments. However, the Company cannot own more than 10% of another company (that is not itself a LIC) or trust.

Where a LIC derives a capital gain in respect of an asset which has been held for 12 months or more the LIC capital gain provisions allow the benefit of a capital gains tax discount to flow through to certain investors. The benefit is received in the form of a deduction and allows for shareholders of LICs to receive benefits similar to those received by the discount capital gains concession on that portion of any one dividend that can be reasonably attributable to capital gains that would be discount capital gains had they been made by an individual, trust or complying superannuation fund directly.

As discussed in Section 3.11, on the basis of the current investment strategy, it is anticipated that the Company will hold its investments on revenue account and thus will not derive assessable capital gains. Accordingly, Shareholders will not be able to obtain a deduction in relation to dividends to the extent that the gains to the Company are not assessable under the capital gains tax regime.

For this reason, it is recommended that investors do not make a decision to apply for Offer Securities under this Prospectus on the basis of potential taxation benefits that may result from the Company being treated as a LIC for tax purposes.

---

However, the Company may hold certain investments on capital account and therefore may be able to pass through LIC taxation benefits to investors that qualify for these concessions.

The Company will advise the amount of LIC capital gains, if any, included in each dividend.

#### CAPITAL GAINS TAX (CGT) IMPLICATIONS

##### Acquisition of Shares and Loyalty Options

The issue of Shares and Loyalty Options will constitute the acquisition of two separate CGT assets by an Investor. The Shares will be acquired for a tax cost amount of \$1.00 per Share and the Loyalty Option will be acquired for a nil tax cost amount (excluding incidental costs).

At the time an investor acquires Shares in the Company, the investor will obtain a tax cost base for CGT purposes equal to the sum of the consideration paid for their investment in the Shares. An investor may include other amounts in the tax cost base of the Shares, which may include certain non-deductible incidental acquisition and disposal costs, as well as certain other non-deductible holding costs in relation to the Shares.

##### Disposal of Shares

A disposal of shares will constitute a taxable event to an investor for CGT purposes. To the extent the disposal proceeds of the Shares exceed an investor's tax cost base of the Shares, the investor should realise a capital gain for income tax purposes.

Where the investor has held the Shares for longer than twelve months, the discount capital gains provisions may allow eligible investors to reduce their capital gain by a discount percentage. The CGT discount percentages are currently 50% for an individual or trust and 33 1/3% for a complying superannuation fund.

To the extent the disposal proceeds of the sale are less than the investors' reduced cost base in the Shares, the investor should realise a capital loss.

##### Disposal of Loyalty Options

The issue of Loyalty Options should not give rise to an immediate taxing event for investors at the time the Loyalty Options are issued.

Where Loyalty Options held by an investor lapse, a CGT event will arise. Given no consideration will be received by an investor, a capital gain should not arise. However, a capital loss may arise on the date the Loyalty Options lapse, equal to tax cost base of the Loyalty Options (e.g. where incidental or holding costs have been included in the tax cost base of the Loyalty Options).

Where an investor sells their Loyalty Options on ASX, a taxable event will arise for CGT purposes on the date of sale. As the investors will not pay any consideration for the acquisition of the Loyalty Options, the investor's tax cost base should therefore be limited to those incidental costs and holding costs that can be included (discussed above). A capital gain will arise where the capital proceeds on the disposal of the Loyalty Options exceed the tax cost base. The CGT discount (discussed above) should be available to eligible investors where the

Loyalty Options have been held for greater than twelve months. A capital loss will arise where the reduced cost base of the Loyalty Options exceeds the capital proceeds from disposal.

##### Exercise of Loyalty Options

Where the Loyalty Options are exercised by an investor, no taxable event should arise for the investor for CGT purposes at that time. Where an investor is issued with new Shares in the Company due to the exercise of the Loyalty Options, the tax cost base for those Shares will be the amount paid to exercise those Loyalty Options (inclusive of any allowable incidental costs and holding costs incurred (as outlined above)). The Shares will be deemed to be acquired on the day the Loyalty Options are exercised for the purpose of the capital gains discount provisions.

#### OTHER TAXES

##### Stamp duty

Investors should not be liable for Australian stamp duty on the holding or transfer of their Shares in the Company.

##### Goods and Services Tax (GST)

Investors should not be liable to GST in Australia on the purchase, disposal or transfer of their investment in the Company.

## 9 | MATERIAL CONTRACTS

The Directors consider that certain agreements are material to the Company or are of such a nature that an investor may wish to have particulars of them when making an assessment of whether to apply for the Offer Securities.

The provisions of the material contracts are summarised below. As this Section 9 only contains a summary, the provisions of each agreement are not fully described. To understand fully all rights and obligations pertaining to the material contracts, it would be necessary to read each agreement in full.

### 9.1 INVESTMENT MANAGEMENT AGREEMENT

The Company and the Investment Manager have entered into the Investment Management Agreement (**Investment Management Agreement**) whereby, subject to the provisions set out below, the Company has appointed the Investment Manager as agent of the Company to invest and manage the Investment Portfolio.

The Investment Management Agreement commences on the date that completion of the Offer under this Prospectus occurs, or such other later date as agreed by the Company and the Investment Manager in writing.

#### DUTIES OF THE INVESTMENT MANAGER

Under the Investment Management Agreement, the Investment Manager must (amongst other things):

- invest and manage the Investment Portfolio for and on behalf of the Company in accordance with the Investment Management Agreement (using any agent or broker necessary or convenient to do so);
- keep the Investment Portfolio under review and confer at regular intervals with the Company regarding the investment and management of the Investment Portfolio;
- keep proper books of account in relation to the Investment Portfolio recording transactions by the Investment Manager and provide information in relation to the Investment Portfolio to assist the Company in the preparation of reports required under any applicable law;
- give proper instructions to any custodian in relation to transactions concerning the Investment Portfolio;
- exercise all due diligence and vigilance in carrying out its functions, powers and duties under the Investment Management Agreement; and
- provide reasonable assistance to any auditor appointed by the Company to conduct an audit of the Investment Portfolio.

Further, in accordance with the Investment Management Agreement, the Investment Manager or a related entity of the Investment Manager is responsible for the day to day administration of the Company and must provide secretarial, administrative, financial and other management services to the Company. No additional fee (i.e. in excess of any Management Fee) is payable by the Company to the Investment Manager or a related entity of the Investment Manager in connection with the provision of the administrative services.

#### INVESTMENT GUIDELINES

The Investment Management Agreement sets out the investment rules that must be complied with by the Investment Manager in making any investment decision. If a proposed investment is outside of the investment rules from time to time of the Company, the Investment Manager must obtain the prior written approval of the Company before investing any part of the Investment Portfolio in acquiring that investment.

However, subject to compliance by the Investment Manager with the investment rules and the Company's right to give directions to the Investment Manager regarding the management of the Investment Portfolio where a majority of the Directors believe on reasonable grounds that this is necessary for the purposes of the Directors complying with their fiduciary duty to act in the best interests of Shareholders, the Investment Manager will be able to determine the manner in which the funds available within the Investment Portfolio may be invested and the manner and timing of acquisition and sale of each investment.

In summary, the investment rules require the Investment Manager to invest the investment portfolio in permitted investments. Permitted investments include:

- (a) listed and unlisted securities (including ordinary shares, preference shares, convertible notes, units and other securities listed on a recognised stock exchange in Australia);
- (b) underwriting / sub underwriting of new issues of securities in which investment would be otherwise permitted under the investment mandate;
- (c) cash and cash-like investments (including bills of exchange, promissory notes, floating rate notes, and securities of, or guaranteed by, Australian Federal or State Governments); and

- (d) Derivatives (for example: futures contracts or options traded on ASX and/or options traded on the Australian Options Market in respect of shares that are listed on ASX) with respect to the asset types listed in subparagraphs (a) and (b) above. As noted in Section 3.8, the Company's investment strategy regarding the use of Derivatives is that this is most likely to occur in the form of selling SPI futures contracts short to protect against a decline in the value of the portfolio in what the Investment Manager perceives to be difficult market conditions.

#### POWERS OF THE INVESTMENT MANAGER

Subject to the investment rules of the Company and any express restrictions set out in the Investment Management Agreement (including the Company's right to give directions to the Investment Manager regarding the management of the Investment Portfolio where a majority of the Directors believe on reasonable grounds that this is necessary for the purposes of the Directors complying with their fiduciary duty to act in the best interests of Shareholders), the Investment Manager has the powers of a natural person to deal with the Investment Portfolio and to do all things and execute all documents necessary for the purpose of managing the Investment Portfolio. However, the Investment Manager must not knowingly do anything which the Investment Manager is prohibited from doing by law or the ASX Listing Rules and must not without the prior written consent of the Company:

- (a) charge or encumber in any way (except where permitted by law) any asset in the Investment Portfolio;
- (b) delegate any of its discretionary management powers under the Investment Management Agreement;
- (c) perform any broking function in relation to the Investment Portfolio, but the Investment Manager may on behalf of the Company appoint any broker to act on behalf of the Company in relation to the Investment Portfolio; or
- (d) hold derivative contracts without sufficient assets to support the underlying liability of the Company, or any custodian or other nominee in respect of that contract.

#### NON-EXCLUSIVITY

Provided that the Investment Manager does not prejudice or otherwise derogate its responsibilities specified within the Investment Management Agreement, the Investment Manager is permitted to perform similar investment and management services to the services performed for the Company for other persons. The Investment Manager is not required to disclose to the Company any information regarding its investment activities which it undertakes for its other clients, notwithstanding that it may be of relevance to the Company.

#### FEES

##### Management Fee

The Management Fee (before GST) is equal to the sum of:

- 0.95% per annum of the Portfolio Market Value up to and including \$150 million;

- 0.90% per annum of the Portfolio Market Value above \$150 million and up to and including \$500 million; and
- 0.85% per annum of the Portfolio Market Value above \$500 million.

Worked examples of the Management Fee are set out on pages 16 and 17 of this Prospectus.

The Management Fee is accrued daily and payable quarterly in arrears (i.e. after each calendar quarter). For the purposes of calculating the Management Fee for a relevant quarter, the Portfolio Market Value is equal to the average month-end market value of the Investment Portfolio for the 3 calendar months within the relevant calendar quarter, where the market value of the Investment Portfolio is reasonably determined by the Investment Manager applying valuation methodology specific to each investment and type of asset.

The Investment Manager is required to present a tax invoice and statement of fees (along with any supporting materials for the fee calculation that the Company may request) to the Company in writing within 30 days after the completion of the relevant fee period. Subject to the terms of the Investment Management Agreement, the Company has agreed to pay to the Investment Manager the Management Fee within 7 Business Days of the date of each invoice issued by the Investment Manager.

The Management Fee is not inclusive of Company, custody and other expenses and taxes payable in respect of the Investment Portfolio.

##### No Performance Fee

The Investment Management Agreement does not contemplate the payment of a performance fee from the Company to the Investment Manager.

#### EXPENSES

The Company is required to pay all costs, charges and expenses properly incurred in connection with the investment and management of the Investment Portfolio or the acquisition, disposal or maintenance of any investment of the Investment Portfolio or in acting under the Investment Management Agreement.

#### TERMINATION

The Company may terminate the Investment Management Agreement with immediate effect (without cause) at any time after the second anniversary of its commencement by written notice to the Investment Manager. If the Company does exercise the right to terminate the Investment Management Agreement without cause, it must pay a Termination Fee to the Investment Manager (as detailed below).

If, at any time after the Investment Management Agreement has been in force for more than 10 years (without being renewed or its term extended by affirmative vote of the Shareholders), the members of the Company in general meeting vote to approve an ordinary resolution terminating the Investment Management Agreement (**Termination Resolution**), the Company must serve notice terminating the Investment Management Agreement, with effect from the date that is 3 months after the date of the Termination Resolution. A Termination Fee is payable to the Investment Manager if this occurs.

The Investment Manager may terminate the Investment Management Agreement at any time during the term of the Investment Management Agreement by not less than 3 months' written notice to the Company. If the Investment Manager does exercise the right to terminate the Investment Management Agreement without cause, no Termination Fee is payable to the Investment Manager.

Both the Company and the Investment Manager may terminate the Investment Management Agreement for cause. If the Investment Manager terminates for cause (for breach by, or insolvency of, the Company), it will be entitled to a Termination Fee. If the Company terminates for cause (for breach by, or insolvency or incapacity of the Investment Manager), the Investment Manager will not be entitled to a Termination Fee. The Company may terminate for cause at any time after the commencement date of the Investment Management Agreement.

The Company may also terminate the Investment Management Agreement at any time after the commencement date of the Investment Management Agreement if:

- the Investment Manager sells or transfers or makes any agreement for the sale or transfer of the main business and undertaking of the Investment Manager or of a beneficial interest in that main business or undertaking; or
- a person (alone or together with the person's associates) acquires a relevant interest in voting shares in CTN where because of the acquisition that person's or someone else's voting power in CTN exceeds 50% or a person (alone or together with the person's associates) otherwise obtains control of CTN.

If the Company terminates the Investment Management Agreement on these grounds, the Investment Manager will not be entitled to a Termination Fee.

#### WHEN A TERMINATION FEE IS NOT PAYABLE

Where the Investment Management Agreement is terminated:

- (a) by the Company because the Investment Manager is unable or fails to meet its obligations under the Investment Management Agreement (whether by reason of legal impediment, insolvency or as a result of a material breach by it of the Investment Management Agreement);
- (b) by the Company because the Investment Manager sells or transfers or makes any agreement for the sale or transfer of the main business and undertaking of the Investment Manager or of a beneficial interest in that main business or undertaking;
- (c) by the Company because a person (alone or together with the person's associates) acquires a relevant interest in voting shares in CTN where because of the acquisition that person's or someone else's voting power in CTN exceeds 50% or a person (alone or together with the person's associates) otherwise obtains control of CTN; or
- (d) by the Investment Manager for any reason other than the Company is unable or fails to meet its obligations under the Investment Management Agreement (whether by reason of insolvency or as a result of a material breach by it of the Investment Management Agreement),

no Termination Fee is payable.

#### WHEN A TERMINATION FEE IS PAYABLE

Alternatively, if the Investment Management Agreement is terminated:

- (a) by the Company for any reason other than those stated in sub-paragraphs (a), (b) or (c) above; or
- (b) by the Investment Manager, by reason of insolvency of the Company or as a result of a material breach by the Company of the Investment Management Agreement; or
- (c) by the Company because the members of the Company in general meeting have approved a Termination Resolution,

the Investment Manager is entitled to a Termination Fee (as detailed below).

#### TERMINATION FEE

The Termination Fee (exclusive of GST) is a multiple of the Management Fees paid to the Investment Manager in the year prior to the date of termination of the Investment Management Agreement (IMA). Subject to the two exceptions below, the multiple is:

- if termination is in the third or fourth year after commencement of the IMA: 4;
- if termination is in the fifth or sixth year after commencement of the IMA: 3;
- if termination is in the seventh or eighth year after commencement of the IMA: 2;
- if the IMA is terminated at any time after the eighth anniversary of its commencement and, at the time of termination, the IMA has not been renewed or extended by affirmative vote of the Shareholders in general meeting: 1.

(Exception 1): If at any time after the eighth anniversary of its commencement the agreement has been renewed or extended (for 5 years or more) by affirmative vote of the Shareholders in general meeting, the multiple is 2 (if the termination date is in the first two years of the renewed or extended term) and 1 (if the termination date is after the first two years of the renewed or extended term).

(Exception 2): If the Company terminates the Investment Management Agreement because the members of the Company in general meeting have approved a Termination Resolution, the multiple is 0.5.

If the Company gives not less than 3 months notice of termination and requires the Investment Manager to provide services for at least 3 months of the notice period, part of the Management Fee paid to the Investment Manager in the notice period may be offset against the Company's liability to pay the Termination Fee.

#### COMPANY INDEMNITY

The Company must indemnify the Investment Manager against any and all losses, liabilities, damages, outgoings, costs and expenses reasonably incurred by the Investment Manager that are due and payable by the Investment Manager to a third party other than the Company and arise out of, or in connection with the Investment Manager, its employees, officers or agents acting under the Investment

Management Agreement or on account of any bona fide investment decision made by the Investment Manager or its officers or supervised agents, except insofar as any loss, liability, damages, outgoings, cost or expense is caused by the negligence, default, fraud, dishonesty or conflict of interest of the Investment Manager or its officers, employees or agents. This obligation continues after the termination of the Investment Management Agreement.

#### INVESTMENT MANAGER INDEMNITY

The Investment Manager must indemnify the Company against any losses, liabilities, damages, outgoings, costs and expenses reasonably incurred by the Company arising out of, or in connection with any negligence, default, fraud, dishonesty or conflict of interest of the Investment Manager or its officers or employees or agents. This obligation continues after the termination of the Investment Management Agreement.

#### ASSIGNMENT

Neither the Company nor the Investment Manager may assign any of its rights and obligations under the Investment Management Agreement without the prior written consent of the other party except to a Related Body Corporate in the case of the Investment Manager or a replacement company in the case of the Company upon 5 Business Days' written notice to the other party or such other period as the parties may agree.

#### 9.2 OFFER MANAGEMENT AGREEMENT

The Company, the Investment Manager and the Joint Lead Managers entered into an offer management agreement on 29 June 2015 (**Offer Management Agreement**). Under the Offer Management Agreement, the Company appointed:

- Evans and Partners Pty Ltd, Taylor Collison Limited, Wilson HTM Corporate Finance Limited and Morgans Financial Limited as the Joint Lead Managers to the Offer; and
- Evans and Partners Pty Ltd as the Authorised Intermediary (further details regarding the appointment of the Authorised Intermediary under the Offer Management Agreement are set out in Section 9.3).

The Joint Lead Managers have agreed, under the Offer Management Agreement, to arrange and lead manage, and act as bookrunners for the Offer.

#### FEES AND EXPENSES

Subject to the Minimum Subscription being achieved, the Company must pay the Joint Lead Managers (in equal proportions) a management fee of 1.0% (exclusive of GST) of the total gross amount raised under the Offer less the gross proceeds received by the Company from the subscription for Shares by CTN).

The Company will also:

- pay or reimburse the Joint Lead Managers for all reasonable expenses incurred by the Joint Lead Managers in connection with the Offer Management Agreement, this Prospectus and the Offer, including reasonable legal fees of the Joint Lead Managers (up to a maximum of \$20,000) and marketing, travel, postage printing and accommodation expenses and other costs, fees, commissions, disbursements, charges, taxes or duties; and

- pay all costs and expenses payable in relation to completion of the Offer including any fees or charges payable by the Joint Lead Managers to the ASX or ASX Settlement,

as soon as reasonably practicable and in any case within 5 days after a request for payment or reimbursement by the Company is made by the Joint Lead Managers or on termination of the Offer Management Agreement.

Each Joint Lead Manager is solely responsible for paying all fees payable to co-managers or brokers appointed by it in relation to the Offer (including the Co-Manager). Where more than one Joint Lead Manager appoints a co-manager or broker, those Joint Lead Managers must pay any fees payable to the co-managers or brokers appointed in such proportions as those Joint Lead Managers may agree or failing agreement, equally. The Company is not responsible in any way or in any circumstances for the payment of any fees payable to any co-managers or brokers appointed by one or more of the Joint Lead Managers in relation to the Offer (including the Co-Manager).

#### REPRESENTATIONS, UNDERTAKINGS AND OTHER TERMS

Customary and usual representations and warranties are given by the parties in relation to matters such as the power to enter into the Offer Management Agreement, corporate authority and approvals and the Company's compliance with the Corporations Act and ASX Listing Rules in relation to making the Offer. Shares and Options issued may be subject to any performance hurdles or restrictions imposed by the Company including the need for participants to hold the securities for a prescribed period during which time the employees or directors cannot sell or otherwise deal in the securities (**Restriction**).

Shares issued may be quoted on ASX and may include vesting conditions. Whilst vesting conditions are imposed on Shares issued, the Company will apply to have a holding lock placed on those Shares. Recipients of Shares will receive dividends and can exercise voting rights while the Shares are subject to a Restriction.

Any Options issued cannot be transferred and will not be quoted on ASX. The terms of any particular Option:

- can impose conditions on the ability of employees to exercise the Option (including time and performance hurdles);
- will specify the circumstances in which the Options will lapse (including on dismissal or removal of the participant from employment with the Company in certain circumstances); and
- provide for adjustments in the event of certain capital reconstructions in the Company (based on requirements in the ASX Listing Rules).

Participants will not, as holders of Options, have any right to attend or vote at general meetings of Shareholders and will not receive dividends.

To date, no Shares or Options have been issued under the Plan and there are no current plans to issue any such Shares or Options under the Plan. Further, consistent with the ASX Listing Rules, no Shares or Options will be issued under the Plan to the Directors without prior Shareholder approval.

The rights and liabilities attaching to the Loyalty Options are summarised as follows:

### REGISTER

The Company will maintain a register of holders of Loyalty Options in accordance with section 168(1)(b) of the Corporations Act.

### TRANSFER/TRANSMISSION

Until the Vesting Date, Loyalty Options will not be transferable and will not be quoted on ASX.

Following the Vesting Date, Vested Loyalty Options will be transferable.

### ISSUE, VESTING AND LAPSE

Loyalty Options issued to an Applicant will either Vest or lapse on the date that is 6 months after the Closing Date or where this date does not fall on a Business Day, the immediately preceding Business Day (**Vesting Date**). Based on a Closing Date of 31 July 2015, the Vesting Date for the Loyalty Options is Friday, 29 January 2016. The number of Loyalty Options held by an Applicant that will Vest at the Vesting Date will depend on the number of Shares held by the Applicant at the Vesting Date.

If the Applicant holds at the Vesting Date the same or a greater number of Shares as the number of Shares issued to the Applicant under this Prospectus, then all of the Loyalty Options held by the Applicant will Vest at the Vesting Date.

If, on the Vesting Date, the Applicant holds a lesser number of Shares than the number of Shares issued to the Applicant under this Prospectus, then the number of Loyalty Options held by the Applicant that Vest at the Vesting Date will be equal to half of the number of Shares held by the Applicant on the Vesting Date (rounded down to the nearest whole number). For example, if an Applicant is issued 10,000 Shares under this Prospectus, that Applicant will also be issued 5,000 Loyalty Options under this Prospectus. If the Applicant holds 7,000 Shares on the Vesting Date then 3,500 Loyalty Options held by

that Applicant will Vest at the Vesting Date (being half the number of Shares held by the Applicant on the Vesting Date). The Applicant's remaining 1,500 Loyalty Options will not Vest at the Vesting Date.

If the Applicant holds no Shares on the Vesting Date then none of the Loyalty Options held by the Applicant will Vest at the Vesting Date.

Loyalty Options that do not Vest on the Vesting Date lapse with immediate effect on the Vesting Date and are of no further force or effect.

### EXERCISE

A Vested Loyalty Option may be exercised by delivery to the Company of a duly completed Notice of Exercise of Vested Loyalty Options (**Exercise Notice**), signed by the registered holder of the Vested Loyalty Option, together with payment to the Company of \$1.00 per Vested Loyalty Option being exercised and the relevant option certificate.

A Vested Loyalty Option may be exercised at any time in the period commencing on the day after the Vesting Date and ending at 5.00pm (Melbourne time) on Friday, 30 March 2018.

Vested Loyalty Options which are validly exercised will be deemed to have been exercised on the date that an Exercise Notice in respect of those Vested Loyalty Options is lodged with the Company. A Notice of Exercise of Vested Loyalty Options is only effective when the Company has received the full amount of the exercise price in cash or cleared funds.

### DIVIDEND ENTITLEMENT

Loyalty Options, once issued, do not carry any dividend entitlement until they are exercised following Vesting. Shares issued on exercise of Vested Loyalty Options rank equally with other Shares then on issue from their date of issue and are entitled to dividends paid on and from this date where the record date for the dividends occurs after the date of issue of the Shares.

### PARTICIPATION RIGHTS

For determining entitlements to the issue, a Loyalty Optionholder may only participate in new issues of securities to holders of applicable Shares in the Company if the Loyalty Option has been exercised and Shares allotted in respect of the Loyalty Option before the relevant record date.

The Company must give at least 6 Business Days' notice to Loyalty Option holders of any new issue before the relevant record date for determining entitlements to the issue in accordance with the ASX Listing Rules.

If between the date of issue and the date of exercise of a Loyalty Option the Company makes one or more rights issues (being a pro rata issue of Shares in the capital of the Company that is not a bonus issue) in accordance with the ASX Listing Rules, the exercise price of Loyalty Options on issue will be reduced in respect of each rights issue according to the following formula:

$$NE = OE - \frac{E[P - (S+D)]}{N+1}$$

where:

**NE** is the new exercise price of the Loyalty Option;

**OE** is the old exercise price of the Loyalty Option;

**E** is the number of underlying Shares into which one Loyalty Option is exercisable;

**P** is the average closing sale price per Share (weighted by reference to volume) during the 5 trading days ending on the day before the ex-rights date or ex entitlements date (excluding special crossings and overnight sales);

**S** is the subscription price for a Share under the rights issue;

**D** is the dividend due but not yet paid on each Share at the relevant time; and

**N** is the number of Shares that must be held to entitle holders to receive a new Share in the rights issue.

If there is a bonus issue to the holders of Shares in the capital of the Company, the number of Shares over which the Loyalty Option is exercisable will be increased by the number of Shares which the holder of the Loyalty Option would have received if the Loyalty Option had been exercised before the relevant record date for the bonus issue.

#### RECONSTRUCTIONS AND ALTERATION OF CAPITAL

Any adjustment to the number of outstanding Loyalty Options and the exercise price under a reorganisation of the Company's share capital must be made in accordance with the ASX Listing Rules at the time of the reorganisation.

#### ASX LISTING

Loyalty Options that have not Vested will not be listed for quotation on ASX or any other financial market.

Vested Loyalty Options are expected to be quoted on ASX within one month after the Vesting Date.

Shares issued on the exercise of Vested Loyalty Options will rank equally with other Shares then on issue and the Company will apply to ASX to have those Shares quoted on ASX.

#### TERMS AND CONDITIONS

For the terms and conditions of the Loyalty Options, refer to the Appendix for full details.

#### 10.5 DIRECTORS' INTERESTS, BENEFITS AND RELATED PARTY TRANSACTIONS

Except as disclosed in the Prospectus:

- no Director or proposed Director has, or has had within two years of lodgement of this Prospectus with ASIC, any interest in:
  - the formation or promotion of the Company;
  - any property acquired or proposed to be acquired by the Company in connection with its formation or promotion or the Offer; or
  - the Offer; and
- no person has paid or agreed to pay any amount, and

no one has given or agreed to give any benefit, to any Director or any proposed Director or to any firm in which any Director or proposed Director is or was a partner:

- to induce that person to become, or to qualify as, a Director of the Company; or
- for services rendered by that person or by the firm in which that person is or was a partner in connection with the formation or promotion of the Company or the Offer.

The following is a summary of the interests and benefits payable to the Directors and other persons connected with the Company or the Offer, and any significant related party transactions.

Subject to the provisions of the Company's Constitution, the ASX Listing Rules and the Corporations Act, Directors and related parties of the Contango Group can participate in the Offer and will have equal rights with any other Shareholder or investor.

#### NO SHAREHOLDING QUALIFICATIONS

The Constitution of the Company does not require the Directors to hold any Shares in the Company as a prerequisite to appointment as a Director.

#### INTERESTS OF DIRECTORS – EXISTING SECURITY INTERESTS

At the date of this Prospectus, the Company has 2 Shares on issue. These Shares are held by CTN.

The Directors, their nominees and associates may subscribe for Offer Securities under the Offer.

Other than as set out in the above, no Directors have an interest in the securities of the Company immediately prior to the date of the Prospectus.

#### INTERESTS OF DIRECTORS – REMUNERATION

The Constitution provides that Directors are entitled to remuneration as determined by the Company in general meeting to be apportioned among them in such manner as the Directors agree and, in default of agreement, equally. Under the Constitution, the maximum aggregate amount that may be paid per annum to Directors by way of fees is \$500,000. Any increase to that maximum aggregate sum needs to be approved by Shareholders.

It is the intention of the Company that the fees payable to its non-executive Directors will be \$40,000 per annum (inclusive of any payments that the Company may be required to make under applicable superannuation legislation). In addition, the chairman of the Company will receive an additional fee of \$5,000 per annum.

If a Director performs additional services which, in the opinion of the Directors, are outside the scope of the ordinary duties of a Director, the Company may remunerate that Director by payment of a fixed sum determined by the Directors in addition to or instead of the remuneration referred to above. However, no payment can be made if the payment would be in breach of any applicable laws or if the effect would be to exceed the maximum aggregate amount payable to Directors under the Constitution.

The Directors are also entitled to be paid travelling and other expenses properly incurred by them in attending Directors' or general meetings of the Company

or otherwise in connection with the business of the Company.

#### DIRECTORS – APPOINTMENT AND ROTATION

Under the Constitution, the minimum number of Directors that may comprise the Board is three and the maximum is fixed by the Directors but may not be more than ten, unless the Shareholders pass a resolution varying that number. Directors are elected at annual general meetings of the Company. Retirement will occur on a rotational basis so that no Director (excluding the Managing Director (if there is one)) will hold office without re-election beyond the third annual general meeting following the meeting at which the Director was last elected. The Directors may also appoint a Director to fill a casual vacancy on the Board or in addition to the existing Directors. Any person appointed as a Director under this provision of the Constitution will hold office until the next annual general meeting of the Company (at which meeting, if he or she is eligible for election, he or she may seek election as a Director).

#### DIRECTORS – VOTING

Questions arising at a meeting of the Board will be decided by a majority of votes of the Directors present at the meeting and entitled to vote on the matter.

In the case of an equality of votes on a resolution, the chairperson of the meeting has a casting vote.

#### INDEMNITIES

In accordance with the Constitution and to the extent permitted by the Corporations Act:

- (a) the Company will indemnify the Directors and officers for any liability to persons other than the Company or its related bodies corporate that they may incur while acting in the capacity of an officer of the Company, except in circumstances prohibited by the Corporations Act; and
- (b) the Company intends to pay insurance premiums in respect of a contract insuring the Directors and other officers of the Company against any liability incurred by those Directors or officers in their capacity as officers of the Company except in circumstances prohibited by the Corporations Act.

In addition to the above rights, the Company and each Director have entered into a deed (each, a **Deed of Access, Indemnity and Insurance**) that grants the Director a contractual right:

- (c) to indemnity from the Company (to the extent permitted by the Corporations Act) for liabilities incurred as an officer of the Company (or a controlled entity of the Company) and any and all reasonable 'Legal Costs' (as that term is defined in the Deeds) incurred by the Director in defending an action for any such liability incurred by the Director as an officer of the Company (or a controlled entity of the Company). The Deeds stipulate that, subject to the Company's directors and officers insurance policy, the indemnities are unconditional, continuing and irrevocable;
- (d) to directors' and officers' insurance cover (as permitted by the Corporations Act) against liability incurred by the person as a Director for the period that each Director is a director of the Company and for 7 years after that Director ceases to hold office; and

- (e) to access documents and records of the Company both while the Director is a director of the Company and after that Director ceases to hold office for the purposes expressly permitted by the deed.

#### RELATED PARTY TRANSACTIONS

##### The Investment Management Agreement

The Company appointed the Investment Manager as the manager of the Investment Portfolio under the Investment Management Agreement. The Investment Management Agreement delegates to the Investment Manager the responsibility to undertake the investment, operating, compliance and administrative requirements of the Company. Details of the Investment Management Agreement, including the termination provisions and the fees payable to the Investment Manager, are set out in Section 9.1.

As at the date of this Prospectus, the Investment Manager is a wholly-owned subsidiary of CTN, which is the sole Shareholder of the Company. Therefore, the Investment Manager is a related party of the Company.

##### The Subscription Agreement with CTN

The Company and CTN have entered into the Subscription Agreement pursuant to which CTN has agreed to subscribe for, by way of an Application under this Prospectus, 30 million Shares (and 15 million Loyalty Options), by way of an Application under this Prospectus, for a total Subscription Amount of \$30 million (refer to Section 9.4 for a summary of the material terms of the Subscription Agreement). This amount is equal to the Minimum Subscription.

It is therefore possible that the Company could be admitted to the Official List with:

- CTN as the holder of 30,000,002 Shares (including the 30 million Shares it has committed to apply for pursuant to the Subscription Agreement); and
- only ASX's minimum 'shareholder spread' requirements satisfied (that is, 400 Shareholders each holding 2,000 Shares, pursuant to Condition 7 of ASX Listing Rule 1.1).

In these circumstances, the Company intends to proceed with closing the Offer on the Closing Date, issuing and allotting Shares to Applicants and listing on ASX. In this event, CTN's shareholding in the Company would amount to approximately 97.4%.

If the aggregate Subscription Amount received from all successful Applicants (including CTN) is \$60 million or less, then it is expected that CTN, through its commitment to subscribe for 30 million Shares for a total Subscription Amount of \$30 million, will remain the majority shareholder in the Company on completion of the Offer.

If the Maximum Subscription is raised and full Oversubscriptions are accepted, CTN will hold 25% of the total number of Shares. The Company has agreed to accept CTN's Application for 30 million Shares in full. Therefore, if total Applications are greater than the Maximum Subscription and full Oversubscriptions, CTN's Application for 30 million Shares will not be scaled back.

The following table outlines the percentage holding of CTN in the Company based on examples of the total amount raised under the Offer and the total number of Shares issued pursuant to the Offer.

	MINIMUM SUBSCRIPTION AND MINIMUM 'SHAREHOLDER SPREAD'	TOTAL SUBSCRIPTION AMOUNT OF \$60 MILLION	MAXIMUM SUBSCRIPTION (BEFORE ACCEPTING ANY OVERSUBSCRIPTIONS)	MAXIMUM SUBSCRIPTION (AFTER ACCEPTING ALL OVERSUBSCRIPTIONS)
Total number of Shares	30,800,002	60,000,002	100,000,002	120,000,002
Number of Shares held by CTN	30,000,002	30,000,002	30,000,002	30,000,002
CTN's percentage shareholding	97.4%	50% + 1	30%	25%

CTN has no present intention to sell the Shares to be issued to it under this Prospectus in the medium term. Similarly, CTN has no present intention to sell a material proportion of the Loyalty Options once they Vest.

### 10.8 LEGAL PROCEEDINGS

To the knowledge of the Directors, there is no material current, pending or threatened litigation with which the Company is directly or indirectly involved.

### 10.9 ASX WAIVERS

ASX Listing Rule 15.16 sets out that management agreements for investment entities (except a pooled development fund) must provide that the investment manager may only end the management agreement if it has given at least 3 months' notice; if the term of the agreement is fixed, it must not be for more than 5 years; and if the agreement is extended past 5 years, it will end on three months' notice after an ordinary resolution is passed to end it.

The Company has applied for and been granted an in-principle waiver from ASX Listing Rule 15.16(b) to the extent necessary to permit the Investment Manager to continue to act as manager of the Investment Portfolio, in accordance with the terms of the Investment Management Agreement, for a period of up to 10 years from the date of issue of the Shares under this Prospectus before Shareholders have the opportunity to require the Investment Management Agreement to be terminated.

### 10.10 ASIC RELIEF

Section 723(3)(b) of the Corporations Act requires that if a disclosure document for an offer of securities states or implies that the securities are to be quoted on a financial market (whether in Australia or elsewhere), the securities must be admitted to quotation within 3 months of the date of the disclosure document, or else the issue or transfer of securities is void, and the person offering the securities must return the money received by the person from the applicants as soon as practicable.

The effect of section 724(1)(b)(ii) of the Corporations Act is that if a disclosure document states that the securities are to be quoted on a financial market (whether in Australia or elsewhere) and the securities are not admitted to quotation within 3 months after the date of the disclosure document, the person offering the securities must either:

- repay the money received by the person from the applicants; or
- give the applicants a supplementary or replacement disclosure document and one month to withdraw their application and be repaid; or
- issue the securities to the applicants and give them a supplementary or replacement disclosure document and one month to withdraw their application and be repaid.

The Company has applied to ASIC for and been granted relief from these requirements, to permit it to apply for quotation of Loyalty Options within 7 days after the date of the disclosure document, on the basis that Vested Loyalty Options will not be admitted to quotation until a date that is no later than one month after the Vesting Date in respect of Loyalty Options.

### 10.11 INVESTOR CONSIDERATIONS

Before deciding to participate in this Offer, you should consider whether the Offer Securities to be issued are a suitable investment for you. There are general risks associated with any investment in the stock market. The value of Offer Securities listed on ASX may rise or fall depending on a range of factors beyond the control of the Company.

If you are in doubt as to the course you should follow, you should seek advice on the matters contained in this Prospectus from a professional adviser.

The potential tax effects relating to the Offer will vary between investors. Investors should consider the possible tax consequences of participating in the Offer by consulting a professional tax adviser.

- they have reasonable grounds to, and do, believe that this Prospectus contains no statements that are false or misleading and that there are no material omissions from this Prospectus.

This Prospectus has been approved by unanimous resolution of the Directors of the Company and the Directors of the Company have authorised the lodgement of this Prospectus with ASIC.

## 5. Who is your Adviser?

Your Adviser is a representative of and acts on behalf of Evans and Partners.

Your Adviser has met the educational requirements and continuous professional development requirements to be a financial Adviser.

## 6. When we give advice will you receive a written record?

When we give retail clients personal advice, a Statement of Advice may be issued to record the basis and rationale for our advice.

If we issue a Statement of Advice it should reflect our understanding of your personal circumstances, your investment goals and our views on specific investment products. The Statement of Advice will also include disclosure of potential conflicts of interest we may have in dispensing our advice.

Where you maintain your advisory relationship with Evans and Partners, a Statement of Advice is generally not provided for further advice situations provided that your personal circumstances and the basis for our advice are not significantly different from the relevant personal circumstances and basis for our advice prevailing at the time of our earlier advice. In this case, if we don't provide a Statement of Advice, you may still request a record of further advice, where we have not already given you one. To request a record of further advice, contact your Evans and Partners Adviser (see contact details above). You have 7 years to request a record of further advice.

In general we must provide you with the Statement of Advice the first time we provide you with personal advice about each type of financial product or when there has been a significant change in your circumstances.

If you want us to provide personal advice to you, it is imperative you provide us with all information regarding your financial situation, investment objectives and particular needs in response to our enquiries. Providing us this information will help us comply with our obligations to act in your best interests and to provide you with advice that is appropriate for you having regard to the scope of the personal advice you require. We also encourage you to notify Evans and Partners of any relevant new information or material changes in your circumstances so we can assess the appropriateness (or otherwise) of your prevailing investment strategy.

You have the right not to divulge information to your Evans and Partners Adviser; however, this may affect the ability of your Evans and Partners Adviser to give you appropriate advice. If you receive advice based on incomplete or inaccurate information regarding your personal circumstances, you should consider the suitability of the advice before acting on it.

## 7. Product Disclosure Statements (PDS)

If we give you advice in relation to investing in certain financial products such as managed funds, exchange traded options or superannuation products and you are a retail client, we must provide you with a PDS. These external financial planners may be paid part of the fees we charge for our services provided we have no reason to believe that the remuneration is conflicted remuneration. The amount they receive is negotiated with each respective financial planning organisation.

Fund managers or other financial organisations may pay us commission for referring investors to them. We will advise you of the fees we receive from these relationships if they are relevant to your situation.

We may also have relationships with corporate issuers of financial products. We will advise you of these relationships when providing financial product advice, if we are permitted by law to do so. This will allow you to assess whether you believe you are receiving appropriate advice which is impartial.

We recommend that you seek advice from a professional tax agent who can provide advice in relation to the tax deductibility of any fees that we charge.

If we provide you with a Statement of Advice in relation to personal advice, and our remuneration (including commission) and other benefits:

Generally, our remuneration takes the form of:

- brokerage which we charge investors when we buy or sell securities or other financial products for them;
- fees charged at a fixed rate for services provided;
- fees based on the value of an investor's funds under management; and/or
- initial and ongoing commission paid to us by product and service providers, for referring investors to them.

More detailed information about the services we provide and the fees we charge with respect to those services and how our Advisers are remunerated are set out below.

In relation to the information below, in the case of retail clients to whom Evans and Partners gives financial product advice, Evans and Partners will ensure that any such fees could not reasonably influence any financial product advice given or that they are only paid or received in circumstances where an exemption applies to the prohibition on the payment or receipt of conflicted remuneration. For example, exemptions apply in relation to certain brokerage and stamping fees and extend to amounts EaP passes on to your Adviser.

To the extent that we give you financial product advice and our fees are Asset based fees they will not be charged on borrowed amounts used to acquire assets in relation to which the fee is calculated (unless it is not reasonably apparent to us that an amount has been borrowed).

### 5. EXERCISE PRICE

Each Loyalty Option has an exercise price of A\$1.00 (**Exercise Price**).

### 6. OPTION PERIOD

- (d) the Vesting Date of the Loyalty Options.

### 12. PARTICIPATION RIGHTS, BONUS ISSUES, RIGHTS ISSUES AND REORGANISATIONS

#### 12.1 Participation

An Optionholder is not entitled to participate in any new issue to existing shareholders of securities in the Company unless they have validly exercised in accordance with these terms their Vested Loyalty Options before the record date for determining entitlements to the new issue of securities and participate as a result of holding Shares.
