The Manager  
ASX Market Announcements  
Australian Securities Exchange Limited  
Melbourne VIC 3000

By e-Lodgement

**ASX Release – Correction to NTA August 2017**

Contango MicroCap Limited (the **Company** or **CTN**) refers to the Monthly NTA – August 2017 Announcement released to the Market on 8 September 2017 (**August NTA Statement**). The performance table has been updated as the August NTA Statement erroneously included data for the ASX All Ords under the ASX Small Ords heading. It also erroneously referred to Range International contributing -19.7% when it in fact contributed +19.7% to the Company's portfolio.

The corrected August NTA Statement is attached.

Yours faithfully,

H Morfis  
Company Secretary

## MONTHLY PORTFOLIO UPDATE

For the month of August, the Contango Microcap fund returned +0.44% vs the Small Ordinaries Index return of 2.71% resulting in underperformance of 2.27%. The Small Ordinaries Index also outperformed the S&P/ASX100 which returned 0.5%. The main detractor from performance (140bps) was from a number of large cap small stocks which the fund was not able to invest in i.e. A2Milk/Mineral Resources/Whitehaven Coal/Blackmores and Worley Parsons. The fund also had a small number of stocks which disappointed, e.g. Silver Chef and Catapult.

The month was dominated by the FY17 reporting period which can be summarised by the word “benign”. This was a similar outcome to the November AGM season where top line growth was hard to find. The positive surprise really came from the resources sector where payout ratios were increased by both the large and small cap producers. This came after a long period of debt repayment and reduced capital expenditure. The recent strength in commodity prices has resulted in solid cash flow generation, stronger balance sheets and raised dividend levels. We have also evidenced a widespread increase in capital expenditure in FY18.

Industrials saw mixed results. In general, high PE stocks that either disappointed or came in line with forecasts came under pressure while the mining services sectors reporting strong results based off a stronger FY17 capex spend by a number of resource companies. The number of Industrial companies seeing downward EPS revisions outweighed upward revisions, with the index-weighted consensus EPS revision at -2.0%.

142 companies in the ASX Small Industrials Index reported in August 2017. Post reporting, 17 companies have seen upwards consensus EPS revisions and 56 downwards revisions.

The strongest performing sectors were Consumer Staples (+6.8%), Materials (+6.3%), Energy (+5.7%), and REITS (+5.4%) while the weakest performing sectors were, Healthcare (-6.2%), Consumer Discretionary (-3.0%), and Information Technology (-0.6%).

Key positive contributors for the month included: **Blackham** (+44.8%), **Panoramic** (+31.4%), **UCW** (+26.1%), **Index** (+23.3%), **Total Face Group** (+21.4%), **Gascoyne** (+20.0%) and **Range International** (+19.7%).

Key negative contributors for the month included: **Nearmap** (-19.6%), **Indoor Skydiving** (-16.4%), **Catapult** (-15.9%), **Gr Engineering** (-15.8%) and **Silver Chef** (-14.5%).
