ASX Release – Amended Investment Update and NTA Statement

Contango Global Growth Limited (the **Company** or **CQG**) (ASX: CQG) attaches an amended Investment Update and NTA Statement for the period ended 31 May 2018 released on Thursday, 7 June 2018 (the **Investment Update**).

The Portfolio Performance table shows the positive underlying performance of CQG’s investment portfolio and has been amended.

There are no other changes to the Investment Update including the NTA information previously released.

Yours faithfully,

Hari Morfis
Company Secretary

CONTANGO GLOBAL GROWTH LTD (ASX:CQG)

INVESTMENT UPDATE AND NTA STATEMENT

31 May 2018

PORTFOLIO UPDATE

Geopolitics returned to centre stage in May. Italy's president Sergio Mattarella's decision to reject the 5 Star Movement-Lega coalition government was the catalyst for the highest level of bond market turbulence since the last Euro crisis. This had knock on negative effects on equity markets, with the European bank sector particularly weak. With both parties having rejected the president's alternative government, further political uncertainty and market volatility is expected. The on/off talks between the US and North Korea and continued fears of a global trade war were additional factors concerning global investors.

In terms of individual countries, the US equity market was among the stronger performers, benefiting as it typically does from its perceived safe-haven status in times of market uncertainty. European and emerging markets delivered negative returns for the month. At a sector level, technology lead the way with banks and telecoms among the weaker performers – a positive for CQG's relative performance.

The portfolio outperformed the broader market during the month with a return of 1.99% versus the -0.10% return of its benchmark MSCI All Country World Index (ex-Australia). The portfolio has also delivered returns in excess of the benchmark over the previous three and six months.

The performance during the month was consistent with our long-term track record of delivering strong relative returns during times of market volatility. Our focus on companies with growing competitive advantages with aligned corporate cultures leads to investments that can deliver strong long-term returns irrespective of the macroeconomic or political environment. This approach leads to the portfolio being overweight the technology and healthcare sectors and underweight banks, a position which helped performance during the month.

At an individual stock level, the stronger contributors included Indian private bank HDFC Bank (+10.7%), Canadian National Railway (+7.7%) and tissue heart valve specialist, Edwards Life Sciences (+7.5%). Those negatively impacting on returns included Latin American e-commerce platform, Mercado Libre (-14.6%) and California based biotechnology measurement firm Agilent (-6.1%).

WHO MANAGES THE PORTFOLIO?

WCM is a California based asset management firm specialising in active global and emerging market equities.

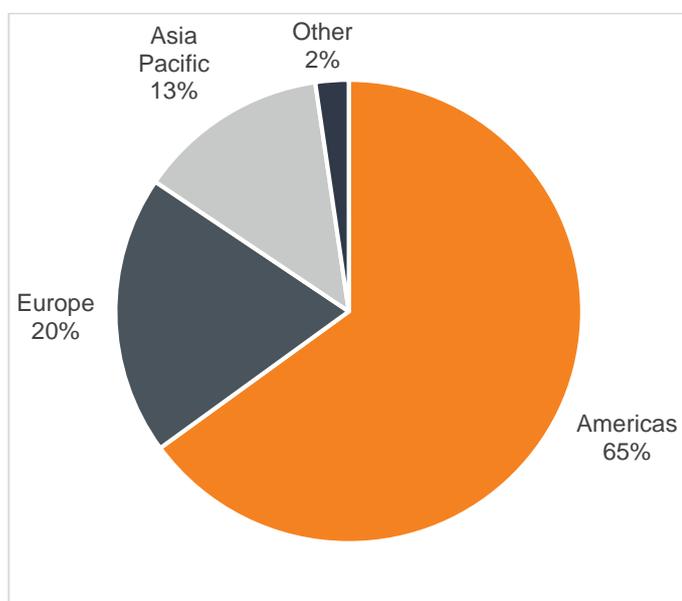

Founded in 1976, the business is 100% employee owned and manages over AUD35bn of assets on behalf of institutional and retail investors around the world including Australia.

HOW INVESTMENTS ARE CHOSEN FOR THIS PORTFOLIO

WCM's two key criteria for any company to be considered for inclusion in the WCM Quality Global Growth Strategy are 1) a rising competitive advantage (or expanding economic moat) and 2) a corporate culture that supports the expansion of this moat. WCM believes the direction of a company's economic moat is of more importance than its absolute width or size.

Their research therefore is focused on identifying those companies with a positive moat trajectory as measured by a rising return on invested capital (ROIC) as opposed to those with a large but static or declining moat. WCM also strongly believes that corporate culture is a key determinant of a firm's ability to achieve a consistently growing moat. WCM has developed a proprietary approach to analysing corporate culture and has investment team members solely dedicated to this part of their process.
